

INDIANA
STATE
POLICE

2011 ANNUAL REPORT

100 North Senate Avenue, Indianapolis, IN 46204

May 1, 2012

TO: Honorable Mitchell E. Daniels, Jr.
Governor

FROM: Paul E. Whitesell, Ph.D.
Superintendent of the Indiana State Police

SUBJECT: 2011 Annual Report

It is an honor to present you with the 2011 Indiana State Police Annual Report. Within the following report, you will find detailed information outlining the department's accomplishments for 2011.

The Indiana State Police is committed to providing the most professional, effective and courteous police service possible at all times and with every endeavor. Through the enforcement of motor vehicle laws, the department has maintained the overall safety of Indiana's roadways. We have addressed crimes and offenders with diligent, conscientious and proactive initiatives.

Our personnel, both sworn and civilian, work hard to make the Indiana State Police the premier law enforcement agency in the country. Hoosiers can take pride in the Indiana State Police and their continued diligent duty.

Respectfully submitted,

Paul E. Whitesell, Ph.D.
Superintendent

Office of the Superintendent

Legal Office

The Legal Office provides legal research and counsel to the executive staff and command staff regarding personnel and contractual matters. The office also responds to inquiries from department employees facing legal issues.

The Legal Office performs a variety of functions including:

- Training department personnel regarding legislation and case law changes that affect the department's operations
- Processing claims for department vehicle damage, and coordinating with the State Attorney General's Office for collections and/or litigation of damage claims (Commission crash collections totaled \$81,783 in 2011)
- Managing the administrative prosecution of all firearms permit cases
- Coordinating efforts with criminal and civil courts
- Process all litigation and coordinate with the State Attorney General's Office as to legal strategy and responsive pleadings
- Review legislative initiatives and provide information to legislators on the department's positions, and concerns regarding pending legislation
- Conducted 1,327 firearms licensing hearings

	2011

Tort Claims Filed	463
Lawsuits Disposed of through Settlement, Dismissal or Summary Judgment	*10

*This number represents only the cases the department received with actual documentation of disposition.

Office of the Assistant Superintendent

Office of Professional Standards

The Office of Professional Standards (OPS) is responsible for the operation of the following sections: Internal Investigations, Equal Employment Opportunity, and Ethics.

Internal Investigations Section

The Internal Investigations Section serves as a central repository for allegations of employee misconduct, preliminary inquiries and internal investigations. Investigators assigned to this section conduct lengthy and complicated investigations involving allegations of employee misconduct. Completed preliminary inquiries and internal investigations are sent to the section, checked for accuracy, and forwarded to the superintendent's office for review. The section provides commanders with information on procedural matters regarding internal investigations and past practice as to penalties in disciplinary cases. Following administrative

action, statistical information is compiled, stored, and secured by the Internal Investigations Section.

2011 Investigations

Formal Investigations	
Internal Investigations	73
Employees Accused of Misconduct	69
Employees Disciplined*	38
Informal Investigations	
Initial Inquiries	208
Substantiated	134
Unsubstantiated	74

* Does not include terminated probationary officers or employees accused of misconduct who retired, resigned or were placed in a disability status prior to disciplinary action.

Equal Employment Opportunity Section

The Equal Employment Opportunity Section (EEO) monitors the EEO/Affirmative Action activities of department employees and provides EEO/Affirmative Action training. Section personnel conduct in-depth investigations into alleged violations of federal and state employment practice laws by and against department employees. The section submits the department's Affirmative Action Plan (AAP) to the appropriate state and federal agencies. The AAP assesses the department's progress in the area of EEO/Affirmative Action and provides guidelines concerning employee conduct. The section also maintains liaison with other state and federal agencies involved in civil rights enforcement. The section additionally provides EEO/Affirmative Action training to all new probationary officers prior to graduation from the academy, and EEO/Affirmative Action training is conducted for other department employees upon request.

2011

EEO Investigations/Allegations	10
Race Discrimination/Harassment	1
Sex Discrimination/Harassment	4
Other	5
Finding of Cause for Complainant/Victim	1
*Supervisory Action	1

* Includes written reprimands to accused, referral of case to Internal Investigations for possible disciplinary action or measures taken to resolve a dispute (make whole relief).

Ethics Section

The Ethics Section monitors the ethical behavior of department personnel in the performance of their official duties and personal activities, to include the minimum standards of conduct for state employees. Ethics training is provided for all department personnel as directed by the State Ethics Commission. Section personnel respond to inquiries from department members regarding ethical issues. Liaison is maintained with other state and federal agencies involved in the enforcement of ethics rules, and section personnel work directly with the State Ethics Commission. Requests for formal and informal advisory opinions as to whether an activity is in violation of state ethics rules are submitted to the State Ethics Commission. Ethical violations committed by department employees are reported directly to the State Ethics Commission.

- Internal investigations conducted during 2011 (73) were down 28% from 2010 (102).
- Informal investigations conducted during 2011 (208) were down 42% from 2010 (361).
- All completed internal investigations are electronically uploaded to the OPS SharePoint internet site for review by the accused employees' chain of command, and recommended dispositions are forwarded to the superintendent.
- All completed initial inquiries are forwarded electronically to the accused employees' chain of command, and recommended dispositions are forwarded to the appropriate deputy superintendent.
- First Sergeants assigned to the OPS also serve as liaison officers to supervisors in the field or divisions assigned to conduct initial inquiries.
- During 2011, internal investigations conducted by department personnel outside of the OPS were less than 6%.

Deputy Superintendent of Financial Management

Fiscal Division

The ISP Fiscal Division is responsible for all financial aspects of the department. This includes procurement, fund reconciliation, accounts payable, accounts receivable, grants management, payroll, contracting, and budgeting.

- The Fiscal Division managed 61 different grant programs during the 2011 fiscal year from various state and federal agencies. Active open grants were valued in excess of \$37.5 million providing our agency with additional funding for equipment, supplies, and manpower. Of the grants that closed in 2011, records indicate that on average 98.5% of the funds awarded were expended within the grant period.
- Through monthly projected analysis and daily oversight of the budgeted ISP funds, the Fiscal Division ended the fiscal year in balance as projected, meeting all required reserve commitments.
- The Fiscal Division staff was invited by the Government Management Information System (GMIS) team to participate in the pilot testing of the Encompass 9.1 system upgrade. The upgrade will be launched statewide in April 2012. Personnel devoted many hours to testing and fine tuning new programs related to accounts receivable, procurement, and project costing. ISP feedback will be instrumental in a smooth implementation of the upcoming statewide Encompass accounting system upgrade.

Logistics Division

The Logistics Division consists of four sections. The Automotive Section maintains and repairs fleet vehicles. The Installation Section equips ISP patrol vehicles, as well as maintains and repairs emergency, safety, and communications equipment. The Quartermaster Section manages the inventory of department assets, equipment, and supplies, including uniformed personnel gear, automotive parts, and installation equipment. The Fleet Management Section schedules garage appointments, issues vehicles, and develops specifications for new vehicles.

Automotive Section

- The section opened 3,664 work orders.
- During 2011, 9,219 different jobs tasks were generated.
- Personnel averaged 37 different automotive maintenance/repairs per day.
- The section installed \$2,748,977 in new automotive parts.
- \$143,885 of recycled automotive parts were removed and installed.
- 218 disabled commissions were towed.

Installation Section

- 1,938 commissions were equipped and issued.
- 1,990 work orders were issued.
- 2,401 different job tasks were generated.
- An average of 343 jobs per installer was completed for the year.
- 386 new and used commissions were equipped and issued.
- 224 commissions were decommissioned, generating \$156,000 of revenue.
- \$552,186 in used equipment, parts and supplies were recycled.

Quartermaster Section

- New automotive and installation parts with a total value of \$2,748,977.44 were received and issued.
- Received and issued \$6,062,022.66 in new quartermaster items.
- Issued equipment to troopers. The average trooper has approximately 30 issued items (uniform items, guns, cars, body armor, etc.).
- Recycled 173 items of used clothing, for a savings of \$8,672.88.

Fleet Management Section

- 1,938 vehicles were put into service.
- Issued and reissued 386 commissions, including 150 new Dodge Chargers.
- Sent 224 decommissioned vehicles to auction.
- Scheduled 3,664 garage appointments.

Facilities Management Section

The preventive maintenance and repairs of all ISP buildings is overseen by the Facilities Management Section. Responsibilities include preparing budgets, writing specifications, preparing and bidding of projects, project inspections, and providing final project completion approval.

In addition to maintaining 92 buildings throughout the state, section personnel also perform an assortment of tasks ranging from constructing utility buildings and woodworking to snow removal and grounds keeping. Specific accomplishments for 2011 include:

- The District 13 and 22 dispatch centers were redesigned to facilitate Regional Dispatch functionality.
- The District 13 kitchen area was completely remodeled.
- Facilities installed a historical land marker at the site of the former Dunes Park Post.
- Beautification improvements to the Indiana State Police Memorial and grounds included: re-painting all letters on the face of the stones, applying a higher grade of soil and re-seeding areas deemed deficient, and re-staining the privacy fence bordering the grounds.
- HVAC units were installed in the Bloomington evidence building.
- Electrical service was established in the storage building located at the Bloomington Post.
- The historical Indiana State Police neon sign previously located at the Redkey Post was refurbished and installed for display in the ISP Museum.
- Personnel rehabilitated the historical Indiana State Police sign located at the Jasper Post.
- The issue of the failing air handler at the Evansville Post was resolved by developing a process of monitoring the voltage, allowing for remedial actions to be taken to avoid insolvency within the system.
- The transformers and coil pack for the air handler at the Evansville Post were replaced.
- Personnel painted the interior of the ISP Museum.

Scott Stafford installs a historical Redkey Post neon sign in the ISP Museum.

Deputy Superintendent of Enforcement

Enforcement Division

The Enforcement Division is comprised of the Capitol Police Section, the Aviation Section, Motorcycle Patrol Unit, Patrol K-9 Program, and the department's specialty teams. Writing and administering federal traffic safety grants is also a key function of the Enforcement Division.

The Enforcement Division is responsible for the planning and administering of:

- Emergency Operation Center (EOC) for emergency management with Homeland Security
- The Comprehensive Emergency Management Plan (CEMP)
- The Continuity of Operations Plan (COOP)
- The Continuity of Government (COG)
- Strategic National Stockpile (SNS) with the Indiana Department of Health
- ISP INDOT pickup truck commissions
- Pilot program for License Plate Readers (LPR)

INDOT Truck Program

- Managing the INDOT construction zones
- 3 Trucks ((2) Indianapolis District and (1) Sellersburg District)
- Work with INDOT on providing extra patrols in construction zones

Master Trooper Shanna Kennedy at a press conference announcing increased patrols in construction zones.

License Plate Reader Program

- Secured a NHSTA grant to purchase four License Plate Readers and develop a program (the first of its kind in the country) for traffic enforcement. The LPR scans license plates at a rate of 1,500 per minute. It will compare the reads to a database for stolen vehicles, HTV drivers, suspended registered owners, expired registrations, Amber and Silver alerts, and has the capability to monitor any other information related to a vehicle registration that is manually entered by the operator.

Federal Traffic Safety Grants

- Selective Traffic Enforcement Project (STEP)
- Combined Accident Reduction Effort (CARE)
- Operation Pull Over (OPO)
- Driving Under the Influence Enforcement Project (DUIEP)
- Motorcycle Unit Patrol (MUP)
- Reducing Intentional Dangerous Driving (RIDDD)
- Mustangs Enforcing Motorcycle Safety (MEMS)
- Rural Demonstration Project (RDP)

An ISP commission equipped with a License Plate Reader.

Capitol Police Section

The Capitol Police Section (CPS) serves and protects the life and property of the judicial, legislative, and business communities in downtown Indianapolis. CPS provides security to state-owned properties including: White River State Park (WRSP), Indianapolis Zoo, The Indiana State Museum, Eiteljorg Museum, Military Park, NCAA Headquarters, Indiana War Memorial, American Legion Mall, University Park, Veteran's Memorial Park, Soldiers and Sailors Monument, the USS Indianapolis Monument, and the governor's mansion. These areas are in addition to the Indiana Government Center Campus, the Indiana Statehouse, the Indiana State Police Headquarters Laboratory, and the Indiana State Department of Health.

- Capitol Police officers investigated 171 criminal incidents.
- Capitol Police documented 221 non-criminal incidents in 2011.
- Capitol Police provided support for several downtown Indianapolis sporting and charitable events held on State of Indiana properties and surrounding downtown locations. CPS Bicycle patrol officers were assigned to the Indiana State Fair.
- The Capitol Police Section obtained 18 additional officers and acquired three new K-9's. Additionally, two officers were trained in explosives ordnance recognition.

CPS Arrests

Offense	Arrests
Battery	2
Criminal Mischief	1
Criminal Trespass	8
Disorderly Conduct	2
DUI	7
Possession of Marijuana	1
Public Intoxication	9
Resisting Arrest	4
Terroristic Mischief	1
Warrant Service	2
TOTAL	37

The CPS Section acquired three new K-9's in 2011.

Aviation Section

The Aviation Section provides all state agencies with efficient flight support for transportation, and a variety of law enforcement missions. The section is staffed with seven sworn pilots and one civilian pilot. Equipment includes two small Cessna airplanes, three Bell helicopters, and one turbo prop Super King Air airplane.

Super King Air airplane

A total of 1,169 hours were flown in department aircraft, a reduction of 3% from 2010. Of these hours, 34% were flown for transportation, 27% for marijuana eradication, 15% for criminal activity, 13% for non-criminal activity, 8% for training, and 3% for maintenance events.

Department pilots responded to 10 disasters, provided an aerial platform for 30 special events, performed 12 surveillance details and flew 37 aerial photo details. A total of 17 arrests were directly supported by the use of the department aircraft. Additionally, the pilots conducted 62 total searches and located 6 missing persons.

The Aviation Section provides transportation for various law enforcement missions.

Motorcycle Patrol Unit

The Motorcycle Patrol Unit provides the department with a highly mobile traffic unit to operate within congested areas, enforcing traffic laws, and provide security escorts. Their mission, when not performing escorts, is strict traffic enforcement on heavily traveled roads. The unit consists of 25 Harley Davidson motorcycles assigned to 22 troopers and 3 sergeants.

Motorcycle Unit personnel are assigned to one of three geographical areas: north, central, and south.

Patrol K-9 Unit

The department has 28 Patrol K-9 teams that are assigned to headquarters, the Drug Enforcement Section, and the 13 state police districts.

- The Patrol K-9's assisted with 3,163 details, of which 1,048 were assisting other agencies. Details included 139 tracks, 2,116 drug searches, 516 criminal arrests, over 3,163 pounds of illegal drugs confiscated, and over \$3,484,895 in seizures.
- Patrol K-9's performed 154 public information programs.

The ISP K-9 Unit hosted the 2011 IPWDA Nationals. Over 120 teams attended.

- The canine team planned and sponsored the 2011 International Police Working Dog Association (IPWDA) Nationals, which hosted 16 master trainers, over 120 canine teams from 60 agencies as well as a delegation from the Korean National Police.
- The Patrol K-9 Teams were all recertified this year. This resulted in recertification at no cost to the agency. One K-9 handler became certified as an IPWDA Trainer, and another was certified as the department's first canine Master Trainer.

Trooper Matt Wilson and K-9 attend the Pendleton District Annual Memorial Service

Specialty Teams

The department's specialty teams include the Underwater Search Rescue/Recovery Team (USRT), Hostage Crisis Negotiators (HCN), Honor Guard, and Critical Incident Stress Management (CISM).

Underwater Search Rescue/Recovery Team

- The USRT conducted 78 operational dives state wide. USRT divers assisted the Marshall County Sheriff's Department in locating several weapons stolen in a residential burglary. Divers located the weapons in the Yellow River using underwater metal detection equipment.
- The USRT provided water safety awareness training to students attending the annual Indiana Department of Homeland Security (IDHS), water search and rescue conference held at Camp Atterbury JMTTC. Water and classroom training covered several topics, including the use and selection of Personal Flotation Devices (PFD's), use of rope bags, survival floating and drown proofing, assisting victims in the water, safety around moving water, and ice safety.
- In 2011, USRT divers located a gun stolen from a business in Harrison, Ohio in August 2010. USRT divers used a metal detector and land marks as navigation aids to locate the gun.
- USRT personnel assisted the Lake County Indiana Crime Lab and the Pittsfield, Michigan Police Department with a murder investigation. The victim was taken to Indiana where the body was placed in a suitcase and submerged underwater. Divers located the suitcase containing the victim, which was held down by a shopping cart and weighted bags.

Hostage/Crisis Negotiators Team

- The Hostage/Crisis Negotiators (HCN) specialty team consists of 38 volunteer members including a commander and assistant commander. The negotiators are divided into three teams: north, central and south. They are required to attend quarterly and annual training.
- This year the HCN were called upon 21 times to defuse tense situations including high risk warrant services, suicidal and barricaded subjects, and hostage situations. Twenty of these incidents were resolved without death or injury to any of the hostages, police officers or the individuals in crisis. These results are consistent with national statistics which indicate that almost all situations are resolved peacefully through negotiation.
- HCN acquired a new negotiation telephone system. This state-of-the-art equipment was obtained through a federal grant designated for the State Homeland Preparedness Program.

Critical Incident Stress Management Team

Employees involved in any traumatic incident are offered the services of the department's Critical Incident Stress Management (CISM) Teams to help mitigate the effects of traumatic incidents which department personnel may be exposed in the course of their duties. The team members are divided into three regional teams throughout the state. The teams normally consist of three enforcement officers from each district, a minimum of one chaplain, one motor carrier inspector, and one telecommunications operator.

Honor Guard Team

When the Indiana State Police conducts a funeral for a department employee, retired or active, or those authorized by the superintendent, the Honor Guard Team is deployed. Funerals are defined by four levels based on employment status and cause of death. The Indiana State Police Honor Guard consists of five Honor Guard Teams. Each team has eighteen members (three 6-member teams) and includes a Color Guard and Funeral Team.

An ISP Honor Guard Team at the Pendleton District Memorial Service.

Special Operations

The Special Operations Section consists of 40 enforcement and one civilian personnel. The various enforcement personnel are assigned to the Emergency Response Section (ERS), Tactical Intervention Platoons (TIP), and Explosive Ordnance Disposal (EOD). These personnel performed duties at special events, furthering the Statewide Crash Reduction Plan, operation of stealth vehicles, dignitary protection, collegiate athletic events, and assisted with the operational planning for Super Bowl XLVI in 2012.

Emergency Response Section

The Emergency Response Section (ERS) is the full-time specialized tactical unit for the Indiana State Police. The section is responsible for emergency response administration, deployment, and training. ERS personnel instruct department members in defensive tactics, firearms, active shooter, and other tactical disciplines.

- ERS acquired a second armored Humvee, to be used across the state in support of ISP operations and other requesting law enforcement agencies.
- Fourteen PVS14 night vision devices were acquired, which will allow enforcement personnel to perform tactical operations in low /no light environments.

Explosive Ordnance Disposal Technician Sergeant Chad Hilton wears an EOD MedEng-9 bomb suit during training exercises.

2011 ERS STATISTICS

Barricade/High Risk Assists	61
Physical Arrests	262
Warrant Service	210
Instructor Assignments	168 days
Protection Details	15 days
Special Surveillances	29 days
Team Training	173 days

Special Events

Special Events manages and assigns department personnel to provide security and traffic direction to several large-scale events which include:

- The Indianapolis 500 Mile Race, attended by thousands of spectators
- The Indiana Black Expo, a three day event, is attended by several thousand visitors in July 2011
- The Brickyard 400, a three-day NASCAR event attended by thousands of spectators
- The Indiana State Fair, a 17 day event with nearly a million visitors
- Section personnel responded to the stage collapse on August 13th and provided site security in the following weeks.
- The Red Bull Indianapolis Moto GP, a three-day event with several thousand spectators
- Special Operations assisted the Sellersburg District with the planning for Thunder Over Louisville and escorts for the Indiana and Notre Dame Football teams
- Special Operations provided dignitary protection for seven visits from current and former presidents and vice presidents

Crash Reduction Section

In 2011 the Crash Reduction Section utilized crash causation statistical analysis from the previous year to develop a crash reduction plan. The plan targeted high crash roadways throughout the state. Troopers patrol high crash roadways taking enforcement action on crash causation traffic violations.

- Fatalities were reduced by seven and total crashes were down by six percent.
- Worksheets were designed and implemented to evaluate the crash reduction plan.

Troopers slow traffic in an effort to reduce secondary crashes.

Commercial Vehicle Enforcement

The Commercial Vehicle Enforcement Division (CVED) enforces commercial vehicle safety for the State of Indiana. The division is responsible for the following areas:

Fixed Scale Facilities: Civilian Motor Carrier Inspectors (MCIs) operate eight fixed scale facilities where commercial vehicle size and weight enforcement is conducted, as well as driver and vehicle safety inspections.

Field Enforcement: Troopers classified as Commercial Vehicle Enforcement Officers (CVEOs) conduct mobile Commercial Motor Vehicle (CMV) enforcement and respond to crashes involving commercial vehicles.

School Bus Inspection: CVEOs are responsible for the inspection of approximately 17,000 public and private school buses.

Compliance Review Squad: CVEOs investigate Indiana-based motor carriers identified as problem carriers by the Federal Motor Carrier Safety Administration (FMCSA).

New Entrant Squad: Comprised of veteran MCIs and a squad sergeant, the mission of the New Entrant Squad is to assist approximately 1,300 new commercial carriers that operate within Indiana annually.

The division also manages the department's Superload Escort, Motor Carrier Safety Assistance Program (MCSAP), SafetyNet, and Non-Division Commercial Vehicle Inspection Programs.

- The American Transportation Research Institute, (ATRI), recognized by industry and regulatory organizations as the preeminent authority in highway transportation research, named ISP's Commercial Vehicle Enforcement program best in the nation. ATRI conducted a study of every state's program for mitigating and reducing CMV crash causation factors. Ten states were chosen as top tier states for their work in CMV crash reduction enforcement efforts. Indiana was ranked number one.
- The U.S. Department of Transportation's Federal Motor Carrier Safety Administration, (FMCSA), awarded the CVED with the 2011 MCSAP Leadership Award for Traffic Safety Enforcement. For the fourth consecutive year, ISP's CMV enforcement program was recognized as the "highest achieving safety enforcement program" in the country. The CVED competes in the large state category with states such as California, New York, Texas and Illinois.

Sergeant Richard Kelly speaks to the media about how routine truck inspections prevent the delivery of food that is unfit for consumption.

- The CVED presented a CMV crash reduction plan and was awarded additional 2011 federal funding under the FMCSA's High Priority Grants for Rural Roads Project. The additional funding supports safety inspections and CMV enforcement along Indiana's high crash corridors.
- The CVED's 2011 CMV Inspections totaled 113,527. This number represents the highest number of CMV safety inspections in the program's history and builds on 2010's record setting pace with an increase of 18.26%.

- Weight enforcement efforts were up significantly: Weigh-in-Motion, (WIM), weighs totaled 1,896,501 (Increase of 42% over 2010 numbers). This statistic demonstrates an increase in hours of operation at the permanent scale facilities and is the total number of trucks weighed and sorted at all scale facilities in the state. The total number of actual trucks pulled in to the scale for weight enforcement was 581,912. (An increase of 22% from 2010). Portable weight enforcement by CVED troopers totaled 3,602, an increase of 28% from last year's efforts.
- CVED's food enforcement efforts received local and national media coverage. The Today Show, Inside Edition, and local news affiliates in Indiana and other states documented ISP's attempts to address the growing problem of unsafe, unscrupulous food transporters who were endangering the public's health by not properly refrigerating perishable food items.
- The CVED School Bus inspection Program began the first phase of the new School Bus Inspection Mobile Application. The application utilizes an all-electronic process which streamlines inspections, improves accuracy, saves tax payer money and provides transparency to citizens. This mobile application inspection process is the first known of its kind in the country. ISP is now fielding inquiries from enforcement officials around the country who hope to make these same improvements in their states.
- In February 2011, a CVED Inspector located 129 pounds of marijuana and \$1,187 in a semi tractor. In June 2011, the same Inspector located 1,073 pounds of marijuana in a semi during an inspection at the Terre Haute scale facility.
- Extensive Commercial Vehicle criminal investigation resulting in charges against an Indiana based carrier for creating and producing forged International Fuel Tax Agreement Cab Cards, (IFTA), IFTA Compliance Emblems, license plates year of expiration decals, license plate registration certificates, federal income tax and heavy vehicle highway use tax forms.
- In December 2011, a bill was sponsored in the state legislature making it illegal to transport meat, seafood, poultry, dairy products and other perishable items in a CMV without proper refrigeration. In March 2012, HB 1298 was signed into law, the first of its kind in the

MCI Joe Dravigne located 1,073 pounds of marijuana in a semi during an inspection.

During the routine inspection of a semi, MCI Joe Dravigne located 129 pounds of marijuana and \$1,187.

country, giving roadside CMV inspectors authority to cite unsafe food transporters. In egregious cases, with the assistance of the health department, ISP received authority to order unsafe food destroyed before it can reach consumers. CVED has received inquiries from all over the country regarding Indiana's food safety enforcement efforts from Industry, health department officials and enforcement agencies alike.

Human Resources Division

The Human Resources Division is responsible for processing sworn and civilian positions, administrating police and civilian promotion processes, disability programs, health insurance programs for active and retired personnel, retirements, and resignations. The division oversees line-of-duty injury claims, the Deferred Retirement Option Program (DROP) and sworn pension program administration, overtime, regular attendance processing, and employment verifications. The Human Resources Division also maintains all department personnel insurance and pension files, and ensures compliance with federal and state laws.

- The division implemented the federal E-Verify program to verify identity and employment eligibility for all new hires.
- The police and civilian hiring processes now utilize the INkless fingerprinting system, increasing efficiency as well as ensuring the thoroughness of background investigations.
- The annual Sworn Promotion Examination was conducted at three locations on three different weekends, drastically reducing the need for make-up examination scheduling.
- The division administered the state's Voluntary Unpaid Leave program in order to generate cost savings.
- The 401(h), established in 2010, began receiving funds in 2011 to reduce the unfunded retiree liability for the Indiana State Police Health Care Plan. This was done in response to continued rising health care costs and health care reform requirements. The division evaluated the plan's design and implemented changes.
- As a result of an application in 2010 to participate in the Early Retiree Reimbursement Program (EERP), the federal government gave the department \$624,302.62, which was deposited in the 401(h) to assist in reducing the unfunded liability for retiree medical benefits.
- The 71st Recruit Academy Selection Process was announced in February. Nineteen hundred applications were received. The 71st Recruit Academy began in October with the hiring of 56 recruits, which included five civilian ISP personnel.
- The 16th Capitol Police Section Selection Process was completed, resulting in eight officers being hired by the department.
- The 17th Capitol Police Section Selection Process was completed, resulting in seven officers being hired by the department.
- The 18th Capitol Police Section Selection Process was started, with an expected hire date in early 2012.
- Open Enrollment was conducted entirely on-line through PeopleSoft, for the Indiana State Police Health Care Plan.
- Sworn life insurance open enrollment was completed.
- A pension amendment was prepared and implemented to incorporate a new Partial Lump Sum Option in the Indiana State Police Pension Trust.
- With the assistance of pension consultants, the division developed and implemented a Group Trust and a 115 Trust.
- The department continues to participate in and receive reimbursements from the Retiree Drug Subsidy program. In March 2011, \$448,167.52 was deposited into the 401(h) to help reduce the unfunded liability for retiree medical benefits.

Lowell District #13

The Lowell District is comprised of seven counties in northwest Indiana. Interstates 65, 80 and 94 are some of the heaviest traveled interstates for commercial motor vehicles in the nation. District personnel provide full service law enforcement to residents in the region. The district lies within the lake effect snow belt, which contributes to numerous traffic-related incidents. Personnel dedicate themselves to keeping motorists safe and the interstates open and flowing freely.

- The three district K-9 units assisted other agencies 127 times and were instrumental in tracking and apprehending seven fugitives. The three units combined seized more than \$716,400.
- Five Lowell District troopers were nominated for Life Saving Awards during 2011 in five separate life saving events, including helping choking victims, assisting a grand mal seizure victim, restraining a suicidal subject on an overpass, and rendering life-saving first aid at a crash scene. The Lake County Chiefs of Police Organization recognized these troopers for their accomplishments.
- The top five troopers in DUI enforcement made a combination of 460 DUI arrests.
- District units working the Domestic Highway Enforcement program initiated over 2,600 traffic contacts resulting in 223 vehicle searches and 61 criminal arrests (23 drug arrests and 18 warrant arrests).
- Troopers participated in the Run to Remember, a race benefitting a police memorial foundation.

Sergeant Alan Jamerson working post command.

Lafayette District #14

The Lafayette District is located in west central Indiana and covers approximately 3,468 square miles over eight counties. Due to the presence of Purdue University, the district has one of the most diverse populations in the state. The district is home to over a thousand electric generating windmills on various farms. Major highways in the district include Interstate 65, Interstate 74, U.S. Highways 41, 52, 231, 421, and State Highways 25 and 63.

- District 14 personnel partnered with local colleges by serving on a board of advisors for Ivy Tech's Criminal Justice program, hosting internships through Ivy Tech and Purdue University, and providing opportunities for students to experience the Indiana State Police through the Ride-Along program.
- District personnel provided support to Purdue University during large scale athletic events.
- A traffic stop on I-65 resulted in the recovery of 20 prepaid gift cards, nine stolen credit cards and the arrest of three suspects. The investigation revealed that false information was placed on the cards by the suspects. ISP was assisted by the U.S. Secret Service.
- A Lafayette District trooper conducted criminal interdictions stops which resulted in 163 criminal arrests, in 70 criminal cases, and the seizure of two kilos of heroin, one pound of cocaine, and 216 pounds of marijuana. In two separate traffic stops, the trooper also seized a total of \$71,000, which was hidden in electronic compartments. Another traffic stop led to the identification of three separate meth labs, the arrest of three suspects and the seizure of one half ounce of methamphetamine. During another traffic stop, the same trooper also recovered \$2,000 worth of stolen merchandise in a vehicle.

I-65 is a major roadway through the Lafayette District.

Peru District #16

The Peru District is comprised of seven counties. Grissom Air Reserve Base, currently home to the Strategic Air Command 305th Bomb Wing, is within the district. U.S. Highway 31 is the major north/south artery running the length of the district, and much of the district's traffic travels this stretch of highway. The primary east/west route through the district is U.S. Highway 24. Other major two-lane roads include U.S. Highway 35 and State Highways 13, 14, 15, 16, 19, 22, 25, 26, and 124.

- During National Police Week, the Peru District participated in Law Day at the Grissom Air Reserve Base. Officers from numerous law enforcement agencies hosted over 600 grade school children and educated them on the responsibilities and opportunities associated with a career in law enforcement.
- On August 22nd, Peru District investigators and troopers responded to the homicide of a Boy Scout leader on the Nickel Plate trail in Miami County. The victim was walking with a group of children when he was attacked and stabbed to death by a deranged male subject. Minutes after the homicide, district personnel initiated a pursuit and apprehended the suspect. District investigative personnel lead this investigation.
- A district trooper recorded 112 OWI arrests, the most OWI arrests in the history of the Peru District. Another district trooper and his K-9 graduated from the Indiana State Police K-9 academy in 2011.
- Five long time Peru District personnel with a combined 161 years of service to the Indiana State Police retired in 2011.

Master Trooper Bob Good stands at attention at the funeral of a retired ISP Sergeant.

Toll Road District #21

Toll Road District personnel patrol 156 miles of Interstates 80/90 in the seven most northern counties of Indiana from the Illinois to the Ohio state line. The Toll Road Post is located at milepost 96 in Bristol. The Indiana State Police is the only police agency with a formal contract with the Indiana Toll Road Concession Company and is the only police agency which provides law enforcement services on the Indiana Toll Road. The main objective of the district is traffic enforcement.

- On January 10, 2011, a vehicle fleeing the scene of a property damage crash struck a trooper as he was attempting to deploy stop sticks. After an intense investigation, both occupants of the vehicle were arrested.
- On February 4, 2011, a vehicle was stopped near Elkhart for a traffic violation. Further investigation revealed that the suspect was transporting marijuana from Chicago, IL to New York, NY. Ninety-eight pounds of marijuana was discovered with an approximate street value of \$500,000.
- On April 28, 2011, an inspection of a semi tractor trailer containing two high-end vehicles valued at \$400,000, led to the discovery of 40 kilos of cocaine with an estimated value of 1.2 million dollars.
- On August 25, 2011, an Elkhart County traffic stop revealed that the occupants of a truck were transporting marijuana from Seattle, WA. to Bronx, NY. Approximately 58 pounds of marijuana and \$2,100 were seized. Two suspects were arrested and charged with dealing in marijuana.
- On December 1, 2011, a vehicle was stopped for a traffic violation in Lake County on the Indiana Toll Road. Upon further investigation it was discovered the two occupants were in possession of over ten pounds of marijuana, and \$598 in cash. The suspects were arrested, and charged with dealing in marijuana.

ISP Dodge Charger

Fort Wayne District #22

The Fort Wayne District consists of eleven counties in northeastern Indiana, making it the largest geographic district in the state. The auto industry is well represented within the district. Classic automobiles Auburn, Cord and Duesenberg were manufactured in the 1920's and 30's in the district, and are on display at the ACD Museum in the city of Auburn. One of the world's largest classic auto auctions is held annually in Auburn. General Motors has a Chevrolet and GMC truck assembly plant located in Fort Wayne. The district is responsible for 122 miles of Interstates 69, and 469. Other major roads include U.S. Highways 6, 20, 24, 27, 30, and 33.

- On January 16, 2011, a van caught on fire after crashing into a telephone pole and severing a natural gas pipe. The driver was trapped in the vehicle as it became engulfed in flames. An off-duty trooper driving his personal vehicle and assisted by another motorist extracted the driver from the van and rolled her in the snow to extinguish the flames on her clothing. The trooper and the assisting motorist were honored for their life saving actions.
- In the spring of 2011, the district was awarded with nearly \$28,000 worth of equipment by the Allen County Drug and Alcohol Consortium in recognition of the outstanding OWI enforcement within Allen County. The consortium purchased five in-car digital video cameras, external hard drives for each, and ten state of the art alco-sensors for the use of district troopers.
- On July 9, 2011, two district troopers arrested a female for OWI and outstanding warrants. During the course of the arrest and booking process, the female commented several times that she could not go to jail because she had to relieve the babysitter who was watching her three-year-old, special-needs son. Suspicious due to the urgency of her pleas, troopers went directly to her residence and discovered her unattended child. The child was placed in the custody of Department of Child Services.
- A district trooper received a tip from an officer with the New Haven Police Department that a man was soliciting children on Facebook, and requesting sexual favors in exchange for K-2 Spice and alcohol. Two troopers and New Haven Police Department officers conducted surveillance of a parking lot where a meeting was to occur between the suspect and a child on the evening of October 29, 2011. The suspect was arrested before the child was endangered.
- On December 15, 2011, district troopers and North Emergency Response Section personnel responded to the Waterloo, IN. area. Early that morning, two suspicious individuals had knocked on several doors, requesting assistance removing their car which was stuck in a ditch. A Waterloo deputy marshal located the suspects, exited his vehicle, after which he was shot in the face and left for dead. A DeKalb County deputy arrived and provided first aid for the deputy marshal until emergency medical services arrived. As troopers and officers were trying to locate the suspects, a resident reported the suspects were hiding under his deck. Troopers, ERS

Sergeant Ron Galaviz attends a press conference promoting the Prescription Drug Take-Back Program. Also in attendance were Steve Ribolla, of the Drug Enforcement Administration, and Indiana Attorney General Greg Zoeller.

Bremen District #24

The Bremen District is located in north central Indiana, and covers approximately 1,900 square miles in four counties. The largest Amish settlement in Indiana is within the district. Major highways include U.S. Highways 6, 30, 31, 33, and the U.S. 20 Bypass.

- On April 27, 2011, a district trooper and his K-9 partner conducted a traffic stop in St. Joseph County and made a positive alert for the presence of cocaine on the floorboard. The trooper was unable to determine if the K-9 had swallowed the cocaine but, as a precaution, administered hydrogen peroxide to induce vomiting. At an animal emergency clinic, the K-9 was treated for a rapid heartbeat and a fever before being released the following day.
- On April 28, 2011, a district trooper and his K-9 partner assisted the Marijuana Eradication Section and located 81 marijuana plants at an indoor growing operation in Mishawaka. Later that day, another trooper searched a car hauler containing two vehicles on the Indiana Toll Road. The K-9 alerted on one of the vehicles and located 29 kilos of cocaine, with an estimated street value of one million dollars.
- District personnel and the Plymouth F.O.P. #195 conducted the ninth Annual Pack-a-Backpack program. School supplies were collected for children in need who attend the Plymouth, LaVille, Culver, Triton, Argos, and Bremen school systems.
- A district trooper was commended for his actions in assisting the Michigan City Police Department. While off duty, at local outlet mall, the trooper saw Michigan City Police officers in foot pursuit of a suspect, and joined in the foot pursuit. The suspect entered a clothing store, and hid behind a clothing rack. The trooper located the suspect and held him at gunpoint until he was taken into custody by Michigan City Police. The trooper also found a firearm hidden under the clothing rack where the suspect attempted to hide.

Bloomington District #33

The Bloomington District is located in southern Indiana. The district covers over 2,519 square miles in six counties, and is home to the main campus of Indiana University in Bloomington. The university houses over 40,000 students and faculty year round, and hosts the IU Little 500 Bicycle Race every spring. Brown County State Park is located in the district, hosting over one million visitors per year. The Crane Naval Surface and Warfare Center covers over 100 square miles in the district, and is the third largest Navy installation in the world. Major highways include Interstate 70, U.S. Highways 50, 231, and State Highways 37 and 45/46 Bypass.

Counties:

Brown

Lawrence

Monroe

Morgan

Owen

- In May 2011, district troopers responded to a tornado outbreak that struck Lawrence and Monroe Counties. Troopers conducted search and rescue operations, traffic direction, and security of the affected areas.
- Troopers utilized photogrammetry technology at 14 serious personal injury/or fatal crashes. Using this new technology resulted in saving an estimated 40 to 50 hours of road closure time, thus reducing the chances of secondary crashes.
- Troopers attempted to stop a stolen truck in Greene County. The suspect rammed a trooper's car, fled, crashed a short time later, and ran on foot. Responding troopers located a cell phone from the crash scene. A subsequent investigation resulted in the arrest of two suspects.
- At a restaurant in Morgan County, an off-duty trooper responded to an elderly female who was choking and unable to breathe. The trooper administered abdominal thrusts, and saved her life.
- An off-duty trooper overheard a call for assistance from the Department of Natural Resources who were attempting to locate a rape suspect in Brown County State Park. The trooper obtained a description of the suspect from the victim. Because of the trooper's knowledge of the area, he was confident of the suspect's identity and put together a photo line-up. The suspect was arrested within 8 hours of the attempted rape.
- A Lawrence County resident received a telephone text from an unknown person attempting to sell drugs. Troopers initiated an investigation and responded to the suspect by text and agreed to purchase drugs. The investigation led troopers to two suspects in the process of manufacturing methamphetamine. They were arrested and eight children were removed from the residence.

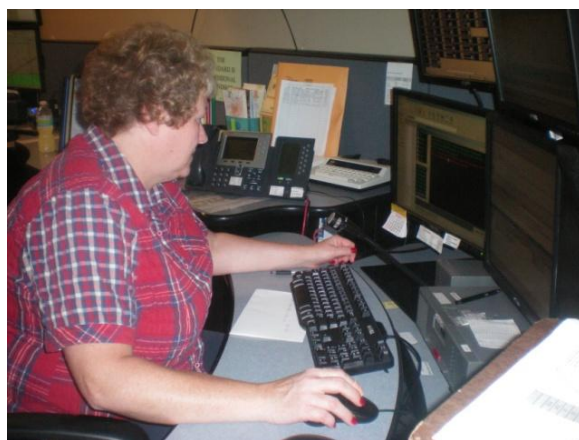

Bloomington District Annual Memorial Service

- Troopers conducted "Code Red" drills in various Morgan County schools. These drills are a joint exercise between ISP, local law enforcement and the Mooresville School System. The drills train officers, teachers and administrators on the proper response to "armed intruders" into the schools. In March 2011, the training was put to use when there was a shooting at the Martinsville Middle School. The suspect was apprehended a short distance away from school property.
- A district trooper was involved in a serious crash on State Road 39 when an intoxicated driver turned in front of him. Responding troopers conducted an investigation that resulted in the arrest of the suspect for OWI resulting in serious bodily injury. After three months of recovery, the trooper returned to work.
- The Owen County 911 dispatch reported an armed robbery at a local gas station. Eyewitnesses reported a green SUV leaving the scene with three armed suspects. A district trooper located the suspect vehicle on a county road and arrested the three suspects for armed robbery.

Jasper District #34

The Jasper District is located in southwest Indiana and covers seven counties. The district is uniquely rural and has no city with a population larger than 15,000. Major highways in district include Interstate 64, U.S. Highways 50, 150, 231 and several state highways.

- A traffic stop conducted by a district trooper on I-64 led to the discovery of a methamphetamine lab, 50 grams of meth, 26 grams of marijuana, controlled substances, a handgun and \$9,550 in cash. A search warrant for one of the suspect's residence led to the discovery of meth, another meth lab, marijuana, controlled substances, and 12 additional firearms. In total, more than 70 grams of meth was found.
- While off-duty, a district trooper provided first aid to a 19-month-old child who was choking. The trooper was presented a Life Saving award for his actions.
- After receiving a tip regarding a murder-for-hire scheme, an ISP officer posed as a hit man and met with the suspect who provided information on the intended victim. A female suspect was arrested.
- A district trooper was at a local restaurant when a brutal stabbing occurred in the kitchen. The attacker fled the restaurant on foot, was later apprehended by troopers.

Evansville District #35

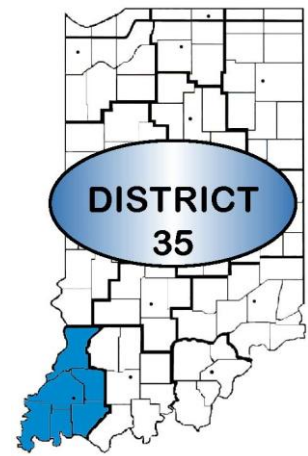

The Evansville District is comprised of six counties in the southwest corner of the state, along the Wabash and Ohio Rivers. The Ohio River continues to have a positive impact on both business and recreational pursuits in the Evansville area. Thousands of visitors attend the Evansville river front every June to enjoy Evansville's Shrinersfest. Troopers assist Evansville Police Department and Vanderburgh County Sheriff's Office to ensure visitors enjoy a safe event. Another large event the Indiana State Police participate in every year is the Frog Follies. Over 4,000 street rods flood the Vanderburgh County 4-H grounds during the last weekend in August. Since 2010, Frog Follies is the largest pre 1949 street rod event in the world. Major highways that travel through the district include Interstates 64, 69, 164, U.S. Highway 41 and State Highways 66, 62 and 57.

- In 2010, there were 147 crashes on State Road 66, and 81 crashes on State Road 261. Troopers conducted several directed patrols on these roadways, and met with Castle School District personnel, presenting educational programs at the elementary, junior high, and high schools. As a result, the number of crashes was reduced on State Road 66 by 39% and on State Road 261 by 19%.

A district trooper discovered illegal drugs hidden in cylinders mounted to the frame of a truck.

- A district trooper was attempting to stop a passenger vehicle for following too closely on I-64 at the 28 mm. Before the driver pulled over and stopped, the trooper clocked a pickup truck approaching from the rear at 86 mph. Another trooper stopped the pickup truck for excessive speed. The trooper suspected illegal drug activity and called for a K-9. The K-9 alerted to the presence of narcotics. A search revealed ten bundles of marijuana weighing 215 pounds. It was determined through further investigation that both vehicles were traveling together, and both drivers were arrested.

Counties:

Warrick

- A trooper stopped a pickup truck for a license plate violation. As the trooper approached the passenger side of the truck he observed a cylinder attached to the frame with large magnets and wrapped in electrical tape. When he walked over to the driver's side he observed a similar object near the rear tire. Both items appeared to be pipe bombs. The Indiana State Police Bomb Squad discovered that the cylinders contained approximately 7.2 grams of methamphetamine, and were being used to transport illegal drugs.

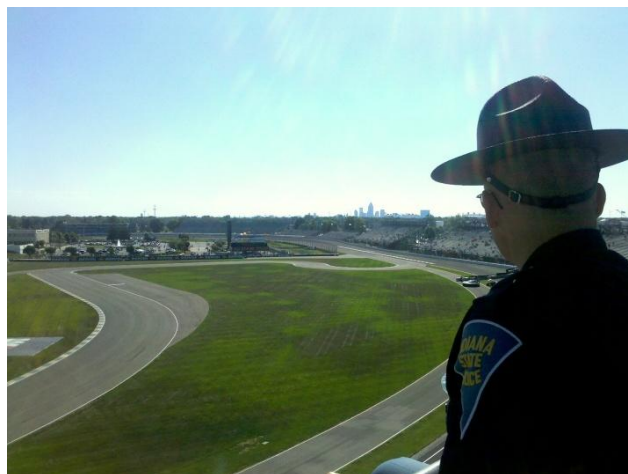

Over 200 pounds of marijuana confiscated during a routine traffic stop.

- An off-duty trooper driving on I-164 was waived down by motorists. The trooper observed a vehicle in the ditch on I-164 and the driver staggering from the vehicle. The investigation revealed the suspect was driving on I-164 and had driven off of the roadway several times striking guardrails. The suspect was taken to a local hospital where it was discovered that he was under the influence of a schedule IV controlled substance. While being treated at the hospital he allegedly battered four emergency room personnel. He was eventually released from the hospital and transported to jail.
- District personnel served an arrest warrant at a residence in Vanderburgh County for a sex offender who failed to register. While inside the residence, officers noticed the house was in disarray and unsanitary. Seven adults and three children resided in the cockroach-infested house. The parents and their three children, ages five, three and one, were not at the residence, but were expected to return soon. While waiting for the parents to arrive, officers noticed one of the children's beds had well over 100 cockroaches on the top blanket alone. When the parents arrived back home they were arrested for neglect and the three children were taken into protective custody by Department of Child Services.

- Crash Reduction efforts within the district resulted in 16 fewer traffic fatalities in 2011 as compared to 2010. There was also a 3% reduction in personal injury crashes, a 5% reduction in total injuries and a 6% reduction in property damage crashes.
- In September 2011, five individuals were murdered in a rural area of Franklin County. District detectives, troopers, lab personnel and ERS members, along with local law enforcement officials, worked many hours to solve the crime. The murder suspect and accomplice were en-route to attempt an armed robbery in the Batesville area, when they were arrested. The murder suspect pled guilty to the five murders and was sentenced to life in prison without parole. The accomplice is awaiting trial.
- Troopers in Ripley, Switzerland and Jefferson Counties arrested several members of a burglary and theft operation that disposed of stolen property in the Louisville area.
- The largest outdoor marijuana grow in Indiana (approximately 26,000 plants) was discovered and eradicated in a remote area of Switzerland County.

Versailles District Trooper Nate Adams conducts a traffic stop.

Sellersburg District #45

The Sellersburg District serves five counties in south central Indiana. The Ohio River borders the southern part of the district and Louisville, Kentucky is located across the river from Jeffersonville, Clarksville, and New Albany. Corydon, Indiana's first state capital is in the district as well as "Thunder Over Louisville." The nation's largest fireworks display occurs annually in April as a prelude to the Kentucky Derby. Interstates 65 and 64 are the two main arteries running through the district, and are connected by I-265.

- On September 9, 2011, the I-64 bridge connecting Indiana and Kentucky was closed for emergency repairs. All traffic was re-routed via I-265 to I-65 to cross the Ohio River. In response, patrols were increased in the bridge re-route zone and Troopers were positioned at strategic locations to minimize road blockage from crashes. In the last quarter of 2011, 223 crashes were investigated as compared to 78 in 2010.
- Personnel received various awards for excellent service to include: rescuing a driver from a burning vehicle; responding to a police action shooting incident; and work in a major federal drug investigation that netted 24 defendants and 40 kg of cocaine seized.
- District personnel formed a Highway Interdiction Team, comprised of four troopers and one K-9 to conduct daily drug interdiction work on I-65 and I-64. In 2011, the team conducted 2,381 vehicle stops resulting in 251 vehicle searches. The K-9 was utilized in 95 vehicle searches. A total of 139 criminal cases were documented with 139 defendants arrested and charged with a total of 187 misdemeanor and 1,241 felony offenses. Asset seizures totaled \$320,432.
- A pilot from Alaska was arrested after landing at the Clark County Airport with 200 pounds of marijuana aboard his plane.
- Two men from Florida were arrested and charged with 950 felony counts after a traffic stop revealed fraudulent gift cards. The U.S. Secret Service became involved and further investigation determined that the two men had been operating in several states and outside of the U.S.
- In 2011, 71 methamphetamine labs within the Sellersburg district were dismantled.
- Fifty-three marijuana grow cases were investigated resulting in 24 arrests, 3,743 marijuana plants eradicated, and \$3,000 in assets seized.
- In Harrison County, a trooper responded to a crash in which a car ran off the road and crashed into a house. The car burst into flames and the driver was killed. The trooper forced entry into the burning house to evacuate anyone inside and discovered that the house was being used as an indoor marijuana growing site. The owner of the house was subsequently arrested.

Trooper Jeff Kellogg (*in uniform*), First Sergeant Sam Sarkisian (*right*), and Lieutenant Steve Holland discuss an operations plan.

Sellersburg District 45 is located in Clark County.

Pendleton District #51

The Pendleton District covers eight counties in east central Indiana, including the urban areas of Muncie, Anderson, and Richmond. The post is located outside of the town of Pendleton, and is surrounded by several Department of Corrections Penal facilities. Several universities are located within the district including Ball State University and Earlham College. The district covers Interstates, 69, 70 and several U.S. and State Highways.

- Troopers conducted 450 public appearances and presented educational programs on topics including personal safety, driving skills, internet security and fraud protection.
- The district's three K-9 teams performed 27 tracks resulting in ten apprehensions; conducted 122 drug searches with 34 defendants; confiscated over a pound of cocaine; and seized \$14,000 in U.S. currency. They also conducted 79 perimeter details and assisted other agencies with 94 details.
- The DUI Squad arrested 347 OWI defendants, accounting for 55% of the district's total DUI arrests.
- In September, 2011, the Pendleton District assisted the Versailles District with the investigation and arrest of a murder suspect, who was responsible for the murder of five people in rural Franklin County. The suspect was captured on a traffic stop.

Pendleton District Lieutenant Bob Burke

Indianapolis District #52

The Indianapolis District is responsible for the largest metropolitan area in Indiana, and covers seven counties. Several major motorsports events occur annually, including the Indianapolis 500, Brickyard 400, Red Bull GP, and NHRA Full Throttle U.S. Nationals. Several state facilities including the Indiana Women's Prison, Indiana State Girls and Boys Schools, Indiana Youth and Diagnostic Center, La Rue Carter Hospital, Camp Atterbury, Indiana School for the Deaf, and the Indiana School for the Blind are within the district. Interstates 65, 70, 74, 465, 865 and several U.S. and State Highways run through the district.

- Indianapolis hosted the NCAA Men's and Women's Big Ten Basketball Tournaments and the Inaugural Big Ten Football Championship. District personnel assisted with traffic and security.
- District personnel assisted the U.S. Secret Service with visits from President Barrack Obama in May 2011, and former President George W. Bush in September 2011.
- District command staff made extensive plans with the National Football League, and federal, state and local agencies in preparation of 2012 Super Bowl 46, to be held in Indianapolis. District personnel along with other Indiana State Police personnel throughout the state will provide security and traffic direction for the event.

Indianapolis District Annual Memorial Service

Putnamville District #53

The Putnamville District serves the citizens of west central Indiana. Within this service area are five hospitals, three universities, three state correctional facilities, and a United States Federal Prison Complex housing a penitentiary, federal correctional institution, prison camp, and a death row. Terre Haute is the largest urban area in the district with a population of over 80,000. Troopers patrol Interstate 70 and several U.S. and State Highways within the district.

- On January 11, 2011, troopers arrested a 24-year-old male who had kidnapped a 14-year-old female in Michigan. The suspect was charged with felony kidnapping and the victim was returned to her parents unharmed.
- On May 10, 2011, troopers and the U.S. Marshalls Task Force arrested a husband and wife, both murder suspects, in rural Vigo County.
- In August 2011, troopers conducted a 2-day saturation patrol in response to one of the state's most raucous events, the Scheid Diesel Extravaganza in Terre Haute. District personnel, supported by Mustang units from throughout the state and ERS South, were assigned to this patrol, which resulted in 39 DUI arrests, 45 criminal arrests and 1,125 traffic contacts.
- On July 7, 2011, troopers responded to the death of Terre Haute Police Department Patrolman Brent Long, who was shot and killed while assisting the USMS Task Force with the execution of a felony warrant. The suspect killed himself as officers surrounded the suspect's home. In the following days, Putnamville personnel assisted with funeral arrangements and assumed law enforcement duties in the city of Terre Haute to allow the THPD to grieve and honor Patrolman Long. Putnamville criminal investigations personnel conducted the investigation ultimately arresting 6 suspects in connection to the murder of Patrolman Long.
- On October 25, 2011, troopers pursued and apprehended three juveniles who had escaped from the Terre Haute Gibault School for Boys.
- On November 18, 2011, at the Annual Operation Pull Over Awards Banquet, the Governor's Council on Impaired and Dangerous Driving recognized the Putnamville District for leading the state in Seatbelt Enforcement in 2011.
- On December 20, 2011, troopers investigated a personal injury crash involving a pickup truck and a pedestrian preparing to board a school bus in Clay County. The driver of the pickup truck failed to stop for a school bus arm and struck a 15-year-old student. The student suffered a fractured leg and internal injuries and the suspect was jailed for reckless driving and criminal recklessness with a vehicle. The district conducted multiple school bus stop arm violations enforcement patrols in response to the incident.

Putnamville District Annual Memorial Service

Putnamville District personnel

Deputy Superintendent of Support Services

Public Information Office

The Public Information Office (PIO) serves the public and the department with enforcement and civilian personnel that work from and operate the ISP museum and Field PIO's holding the rank of sergeant are assigned to 12 of the 13 state police posts

Personnel assigned to the museum are responsible for implementing non-traditional recruiting methods, coordinating ISP youth camps, managing web content, and designing and producing department documents. Awards and promotional ceremonies and the superintendent's annual retiree luncheon are coordinated by the museum staff. Additionally, personnel maintain museum displays, procure and sell logo items, schedule and provide tours and conduct other general business functions.

Field PIO personnel disseminate information related to matters of public safety and welfare. Information regularly provided by PIO personnel include updates on criminal investigations, arrests, crashes, road conditions and general public safety information. This information is normally provided through official news releases, news conferences, media availability and individual interviews with members of print, radio and television media. PIO personnel also utilize social networking sites to provide information to the public and media. By making information readily available and responding to inquiries PIO personnel have developed strong working relationships with media personnel. District PIO's serve as recruiters for each of the state police districts. Responsibilities include coordinating and presenting educational programs on traffic safety, crime prevention and personal safety.

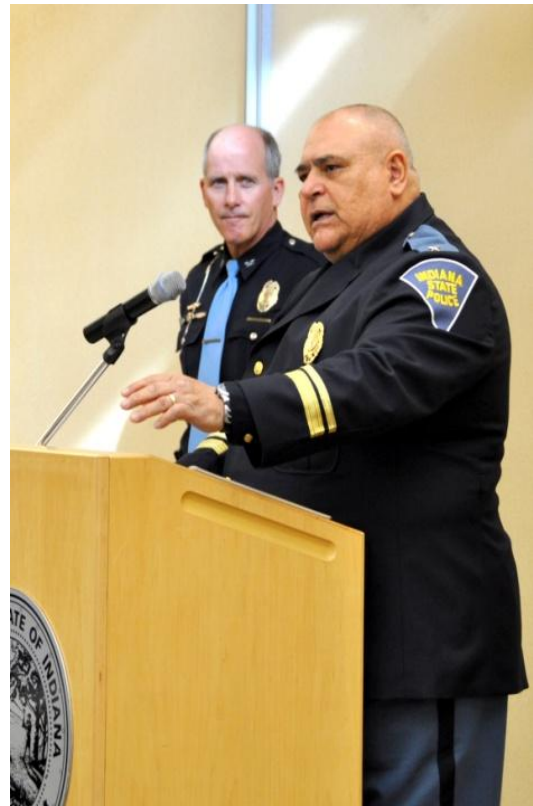

Bremen District's Public Information Officer Sergeant Trent Smith addresses the media.

An overview of services provided by the Public Information Office includes:

- Members of the Public Information Office authored 1,655 press releases for the agency on a variety of topics. Several stories received national attention and highlighted the hard work and dedication of department members.
- Field Public Information Officers are assigned to each state police district with the exception of the Toll Road District. Those units conducted 1,300 public programs on traffic safety, personal safety, and crime prevention. They facilitated another 948 programs given by other state police personnel across the state.
- The Public Information Office reorganized operations related to recruiting and added new staff to help facilitate recruiting efforts of the department. The department had 3,306 online applicants for the 72nd Recruit School. This was an increase of 57% over the 71st Recruit School. Minority recruiting also increased by 5.38% from the previous class.

- The ISP Logo Store in the museum increased sales by approximately 33% over 2010. This was done by increasing marketing efforts, putting old stock on sale, and by sending emails to department members and retirees about new items at the store.
- The Public Information Office facilitated several special events for the department. Some of the events coordinated by the staff were promotional ceremonies, retiree's reception, and awards ceremonies at various locations. Staff from PIO created certificates, documents, and programs for each of these events. Photographs were also taken to document the events.
- The Graphics Specialist for the office continually updates maps, fliers, and templates for the agency. Also during this year, staff created nearly 700 certificates, identification cards, awards, and resolutions.
- The Public Information Office facilitated eleven youth camps across the state. Nearly 800 youth attended the camps for various age groups. This is the 42nd year for ISP Youth Camps.
- The Public Information Office facilitated staffing for the information booths at the Indiana State Fair and the Indiana Black Expo. Officers interacted with diverse populations at these events, recruited for new employees, and answered law enforcement specific questions from the public.
- The Public Information Office manages day to day operations of the ISP Museum. During 2011, museum staff attended training with the Indiana Historical Society and received counsel from the society on how to better manage, preserve, and display items in the museum.
- The Public Information Office was the primary media contact of the stage collapse at the Indiana State Fair.
- The Public Information Office obtained new software for graphic creations and photo enhancement.
- The museum began installing new equipment in the training room for interactive presentations.
- The interior of the ISP Museum was painted by summer staff from the Facilities Management Section.
- The Public Information Office creates and manages content for the Indiana State Police website, the Indiana Intelligence Fusion Center website, the Meth Suppression website, and the Laboratory website. In 2011, the ISP website received 1,388,367 visits.
- The Public Information Office worked with laboratory personnel to develop a website specifically dedicated to lab information. In November, the ISP Laboratory website was launched.
- A new web page was created specifically for the ISP K-9 section.
- Numerous time-sensitive updates from Human Resources were published online during the department hiring processes.

Colonel Richard Weigand looks on as Superintendent Paul Whitesell speaks at an awards ceremony coordinated by PIO.

- The 71st Recruit Academy online photo gallery was created, allowing the public an inside look at the life of a state police recruit.
- New web pages were developed specifically for IN-Time information. IN-Time is dedicated to the timely clearing of crash scenes to minimize the opportunity for secondary crashes and maximize the efficient flow of traffic after a crash.
- The address of the ISP Museum was changed to be only for the museum facility and no longer shared with the Indianapolis Post or the Logistics Division. The permanent address for the museum is 8660 E. 21st Street, Indianapolis, IN 46219.

The number of applicants for the 2011 72nd Selection Process increased by 57% from the previous process.

Criminal Justice Data Division

The Criminal Justice Data Division (CJDD) controls the department's technology-based programs, including the initiative of Regional Dispatch Centers and implementation of a Computer Aided Dispatch and Records Management System. Other functions include management of the department's information technology needs.

Many of today's technology projects involve interoperability with other governmental entities, including federal, state, and local agencies. CJDD is the liaison to many other agencies including the Federal Bureau of Investigation (FBI), Integrated Public Safety Commission (IPSC), the Indiana Office of Technology (IOT), and the Bureau of Motor Vehicles (BMV) for technological issues.

CJDD also manages the Indiana Data and Communications System (IDACS) for the entire state, and oversees the Indiana Clearinghouse for Information on Missing Children and Missing Endangered Adults. CJDD disseminates critical information to the field and maintains statistics of daily activity performed by all department enforcement personnel.

Information Technology Section (ITS)

- ITS programmers created an Electronic Audit Form that interfaces with the current Inventory M-5 program. The process reduced the time it takes for troopers to receive their equipment by nearly 2 months.
- ITS programmers created numerous time saving forms and measures. A report was developed to track the DUI activity of over 1,200 troopers. Existing background review forms were redesigned to be presented using Microsoft InfoPath. Files from IOT's FileNet were transitioned, saving the department approximately \$1,200 a year.
- The FBI introduced a new Uniform Crime Report that shows criminal activity by age, sex, and race. This form had never been used in the past. ITS programming created a new report to show this information in a meaningful and federally approved manner. This will allow the Indiana State Police to be eligible for federal grants.

CAD/Communications

- Throughout the first half of 2011, the department continued regionalizing the 10 remaining dispatch centers. A total of six regional centers now exist throughout the state.
- Software and computer equipment was purchased to improve officer safety and increase department efficiency. The CAD program provides a wealth of information for dispatchers to give officers responding to calls for service. The information includes prior runs to a specific location and allows the dispatcher to ask pre-determined questions based on the type of call received. This increases officer safety and allows the officer to be pro-active when arriving at a location or scene.
- Automatic Vehicle Location (AVL) was adopted by ISP along with regionalizing dispatch centers. Using AVL, dispatch center personnel can view the trooper's location on maps displayed at each computer workstation. Recently, a trooper's life was saved when he was involved in a crash because he was using his AVL device. Unable to speak, he could not contact

dispatch for help. He was able to press the emergency button on his radio, and dispatch personnel immediately saw his location and sent other officers to assist.

- Dispatch center personnel use AVL to assist troopers during pursuits. In one scenario, dispatch personnel were able to inform the trooper of a curve long before he actually reached the location.
- A file was developed allowing electronic ticketing and crash reporting data to be shared, alleviating redundant input between software applications.
- Phase one of two phases was completed on all of ISP's radios pertaining to new federal rules. Local agency talk groups were added to all of ISP's mobile and portable radios. This project enables ISP troopers to communicate with local officers and monitor their radio traffic. This enhances officer safety and interoperability between agencies.

IDACS, Systems & Programming and Criminal History Records Information Sharing (CHRIS)

- IDACS piloted a program returning driver and vehicle information to handheld devices. The application, iPatrol, was developed by Law Enforcement Wireless Village in conjunction with ISP's current system vendor, Computer Projects of Illinois. This program queries IDACS, National Law Enforcements Telecommunications System (Nlets) and National Crime Information Center (NCIC) information through access to Criminal Justice Information Systems and displays it on Android smart phones. Detectives out of Area 1 tested the application for speed, accuracy and viability.
- IDACS participated in a pilot Nlets and Federal Motor Carriers Safety Administration (FMCSA) program to return automated Commercial Drivers License Information System (CDLIS) checks and enhanced apportioned plate queries. If an IDACS device, regardless if it is a terminal or mobile device, runs a driver's license or driver's history query a CDLIS check will occur and return automatically. If a device runs a vehicle registration query containing an apportioned plate, a FMCSA check will occur and return automatically.
- With the release of the FBI's Criminal Justice Information Services (CJIS) Security Policy 5.0, and further direction from the response to the 2010 NCIC Audit, the IDACS Training Section, along with Systems & Programming, prepared a new CJIS Security Awareness training program that affects every law enforcement agency in the state. The training instructs on topics widely ranging from social networking to access control measures.

Indiana Missing Children and Missing Endangered Adults

- Twenty-six Silver Alerts were activated in 2011; twenty individuals were located by law enforcement alive, five were found deceased and one Silver Alert is still active. There was one Amber Alert activated; the child was located by law enforcement.
- Amber and Silver Alert procedures were reviewed and evaluated, resulting in a rewrite of the procedures into a task list. The review included examination of the legislation and criteria for each alert and the written procedures associated with each. Consideration was taken into account of the actions and duties performed by individuals from other divisions and sections of ISP and other state agencies, such as the ISP Public Information Office, ISP Data Center, Indiana Department of Transportation, National Weather Service, Hoosier Lottery along with the Indiana Broadcasters Association and broadcast engineers with WIBC and WFBQ, and submitting law enforcement agencies.

Laboratory

The Laboratory Division accepts evidence for analysis at laboratories located at Indianapolis, Lowell, Fort Wayne, and Evansville. Personnel collect, maintain, and analyze evidence. The laboratories have been accredited by the American Society of Crime Laboratory Directors/Laboratory Accreditation Board (ASCLD/LAB) since 1991. Evidence storage is maintained at the four laboratories and 14 state police districts. Analytical services (DNA, drugs, firearms, latent prints, trace, and documents) and support services (crime scene investigation, crime scene training, polygraph, and photography) are provided to state, county, municipal, and federal agencies to assist in the detection, apprehension, and prosecution of criminals. The Indiana State Police Laboratory is made up of 11 distinct sections or units.

The [Forensic Biology Section](#) provides identification of body fluids, specific determination of biological materials, DNA extraction and evaluation, DNA amplification and typing, DNA profile comparisons, statistical analysis of DNA profile results, and it maintains and searches an offender database for matching profiles.

The [Forensic Drug Analysis Unit](#) identifies, quantifies, and compares controlled substances, non-controlled drugs of abuse, controlled steroids, and diluent materials in drug preparations for investigative intelligence.

The [Forensic Firearms Identification Unit](#) compares and identifies fired bullets and cartridge casings. The unit also examines and compares tool mark evidence, submits items for comparison into the Integrated Ballistics Identification System (IBIS) database, and performs muzzle to target distance determination. The unit also performs serial number restoration, completes function testing of firearms, and characterizes recovered ammunition components.

A forensic scientist sights in a .50 caliber Barrett rifle during testing.

The [Forensic Latent Print Identification Unit](#) examines and compares unknown to known dermal friction ridge detail. For unidentified suspect investigations, the Automated Fingerprint Identification System (AFIS) database entry/inquiry is employed. The unit also conducts examinations of footwear impressions and tire impressions.

The [Microanalysis Unit](#) provides identification, analysis, and comparison of fibers, paints, tapes, glass, fire debris, plastics, automotive lamps, clandestine laboratory reagents, unknown materials, and building materials. The majority of cases processed by the unit are fire debris related.

The [Forensic Document Unit](#) examines handwriting, authenticates documents (e.g. checks, vehicle titles, driver licenses), and develops indented writing impressions on documents. They also determine the sequence of events on documents, conduct edge to edge (fracture) exams,

recover the text of altered/obliterated and charred documents, and determine the source of printed documents.

Crime Scene Investigators provide technical crime scene processing and court testimony. This includes identifying and collecting potential evidence, reconstructing the events of crimes, and physically linking alleged suspects to the crimes.

The **Crime Scene Quality Unit** conducts training in crime scene processing for local police agencies and the Indiana State Police crime scene investigators. The unit performs quality assurance audits and assessments for all Indiana State Police evidence storage facilities and each of the Indiana State Police crime scene investigators. They also assist the Indiana Law Enforcement Academy (ILEA) in certification of crime scene investigators for agencies throughout the state.

A CSI searches a scene for evidence.

The **Forensic Analysis Quality Assurance Unit** ensures compliance to laboratory and accreditation quality assurance standards, maintains documentation of quality assurance verification, oversees the implementation of corrective action, and ensures laboratory adherence to proficiency testing standards. The unit also assures laboratory compliance to witness critique requirements and conducts quality assurance-related training for laboratory staff.

The **Polygraph Unit** provides polygraph services to the department and other law enforcement agencies. Polygraphs are used extensively in child molestation investigations, where a delay in reporting often results in no physical evidence being available.

The **Forensic Photography Unit** supports a statewide mug photograph program, provides the majority of photography services for the department, and fulfills maintenance requirements for the department's photography equipment. They also process film for the State Fire Marshal's Office and the Indiana Attorney General's Office. Digital images are uploaded from 14 districts, cataloged and archived.

- In 2011, the Laboratory Division received 17,711 cases and completed 17,386 cases. The average turnaround time at the end of 2011 for completing a case was 48 days from submission, down from 55 days in 2010.
- It is the Laboratory's vision to provide the criminal justice community of Indiana analytical reports in 45 days or less from the time of the request for the services. This has been an ongoing goal, which has seen the overall number of pending cases over 45 days reduced from 3,803 in 2005 to 1,060 in 2011.
- As part of an ongoing training series to educate the criminal justice community on the capabilities and limitations of the Laboratory and forensics in general, training was offered to

the Indiana Public Defenders Council this year. The training included overviews of DNA, Drugs, Firearms, Latent Prints, Trace Examinations, Document Analysis, and Crime Scene Processing.

- The DNA section added two new services in 2011, analysis of criminal paternity cases and analysis of YSTRs. YSTRs are DNA markers on the Y chromosome and are present only in DNA from a male individual. This testing will help identify persons when only a small amount of male DNA is present or when male DNA is masked by female DNA in a mixed sample. The section also completed the validation to automate portions of the analysis.
- In 2011, 14 cold cases were re-examined utilizing DNA analysis. Thirteen cases produced CODIS eligible profiles and five resulted in database hits. This brings the overall totals from this project since 2009 to 76 cases reanalyzed, 46 CODIS eligible profiles obtained and entered, and new leads in 16 of those cold cases via a database hit.
- A total of 558 criminal investigations were aided through CODIS. This can be broken down into 5 National Forensic Hits, 153 National Offender Hits, 33 State Forensic Hits, and 392 State Offender Hits.
- The Drug Unit has seen a continued increase in submissions containing synthetic cannabinoids as well as substituted cathinones in the last year. New derivatives of these substances are appearing almost weekly. Analysis of such cases is more complicated and time consuming than typical cases. The Drug Unit continues to support members of the legislature with information to improve upon Indiana legislation with regards to controlling these dangerous substances.
- The Document Unit created a study guide regarding preparation for a Daubert hearing on forensic document examination. In August, the study guide was presented at the American Society of Questioned Document Examiners. This work was based on the Unit's involvement in a hearing of a motion to exclude expert testimony (Daubert hearing) in October 2010 in Benton County, Indiana. The study guide was very well received within the international document community and posted on multiple websites for other examiners to use.
- The Laboratory Division successfully analyzed biological materials from many types of cases this year. Including a case in which biological fluids found on a blanket taken from the suspect's truck helped convict a former volleyball coach of child seduction and sexual misconduct with a 15-year-old player. In another case, DNA analysis in a 24-year-old homicide case revealed that the husband had killed his estranged wife the day after she had filed for divorce.
- The Firearms Unit worked a case in which a man was shot to death inside a residence and another individual was shot to death outside the residence. A member of the unit examined several cartridge cases (.22 and .40 caliber) and bullets (.40 caliber) from the scene. Using the available General Rifling Characteristic Database and research from an AFTE journal article, the scientist concluded that all the .40 caliber bullets and cartridge cases from the scene were most likely fired in a Smith and Wesson SW40VE. This information was relayed to the crime scene investigator working the case as an investigative lead. Several weeks later, a firearm was found near the home and it was identified as a Smith and Wesson SW40VE. After examining the weapon, the scientist linked one of the bullets and seven of the cartridge cases from the scene back to this firearm.

Recently controlled synthetic cannabinoids

Records

The Records Division is responsible for criminal history records, the Indiana Automated Fingerprint Identification System (AFIS), firearms licensing, and vehicle crash records. The Records Division serves as the central repository for criminal history records for Indiana. These records are searched by local, state, and federal law enforcement agencies during criminal investigations. Non-criminal justice use of the central repository continues to increase each year due to criminal history background checks on prospective employees and volunteers. The division also maintains and supports AFIS, which facilitates all criminal fingerprint cards for storage and processing to the state criminal history database and Federal Bureau of Investigation. The Firearms Licensing Section manages all matters relating to handgun permits, and the Vehicle Crash Records System facilitates electronic crash reporting.

- The Firearms Licensing Section issued 61,595 handgun permits in 2011.
- On March 1, 2001, the department stopped printing handgun permit applications in an effort to encourage agencies to use the eFirearms online handgun application. The division created a PDF application for agencies that continue to use the manual application process.
- The Records Division worked closely with the Indiana Criminal Justice Institute to secure a \$3.8 million Byrne JAG Federal grant to purchase 102 new Livescan fingerprint devices for Indiana arrestee processing centers. The Livescan devices capture and submit electronic booking records of arrests that contain fingerprints, palm prints and mug photographs directly to the ISP Automated Fingerprint Identification System (AFIS). The use of Livescans has led to a record number of electronically submitted criminal fingerprint cards of 211,023 up from 199,503 in 2010.
- The Automated Reporting Information Exchange System (ARIES) 5 upgrade was completed and implemented. Benefits of the updated system include more accurate methods of locating where collisions occur, VIN validation, and USDOT number look up. ARIES 5 also allows “out of district” accident reports to be submitted to the proper district. When submitting a report on behalf of another district, it is to be reviewed by the district where the crash occurred.

Investigations

Indiana Intelligence Fusion Center

The Indiana Intelligence Fusion Center (IIFC) collects, evaluates, analyzes, and disseminates information and intelligence data regarding criminal and terrorist activity within Indiana while following fair information practices, ensuring the rights and privacy of citizens. This is accomplished via a 24 hour centralized, comprehensive, multi-agency, information and intelligence sharing network to enhance the operational effectiveness of all Indiana public safety agencies involved in crime prevention and homeland security. The IIFC is one of the 77 nationally recognized fusion centers. The IIFC serves as the primary state office responsible for terrorism and gang situational awareness by collecting, validating, analyzing, and disseminating national security and criminal intelligence information.

- IIFC completed 6,245 requests for information.
- Personnel wrote and disseminated 177 products which included threat assessments, law enforcement bulletins, and counter terrorism products.
- IIFC was nominated for Fusion Center of the Year Award.
- The INGang Network, a statewide gang database, continues to build membership with over 720 members from over 100 participating agencies.
- The INGang Network was selected as one of only five agencies to participate in a national gang information sharing pilot program.
- The INGang Network's private sector membership increased to 450.
- IIFC personnel conducted full day training for over 70 private sector partners, and also sponsored First Observer Training, Threat and Risk Assessment, and Enhanced Threat and Risk Assessment training for over 100 partners.
- Launched Homeland Security Information Network Critical Sector Portal for federal archived information sharing to key contacts within the private sector.
- Assisted the United States Department of Homeland Security in coordinating the Joint Counter Terrorism Awareness Workshop held in Indianapolis for over 70 private sector attendees.
- Staffed a full time Fire Service Liaison branch with an Indianapolis fire fighter whose responsibility is to coordinate operations between the fire service, and the Indiana Intelligence Fusion Center.

Training Division

The Training Division is responsible for all department basic and in-service training. Basic training is provided through the ISP Recruit Academy, Indiana Law Enforcement Academy (ILEA) Basic Course, and Motor Carrier Inspector (MCI) Basic Course. In-service training is conducted by division staff and ILEA certified department instructors throughout the state. Mandatory re-occurring training for department sworn personnel includes firearms, defensive tactics, tactical intervention, Emergency Vehicle Operation (EVO), Explosive Ordnance Disposal (EOD), SCUBA, American Heart Association First Aid, and chemical test operation. The division also administers a variety of specialized schools for enforcement and civilian personnel.

- The Training Division is responsible for all department breath test certifications and recertification. In 2011, division personnel provided the training administration for breath test recertification for over 500 department enforcement personnel.
- Division staff administered the 70th Recruit Academy, with 43 recruits graduating.
- The 71st Recruit Academy began in 2011, with graduation scheduled for March 16, 2012.
- The implementation of CrossFit methodology in the 70th and 71st recruit academies resulted in increased work capacity and strength with a very low injury rate for the recruits.
- The Superintendent's Annual In-service training was completed. All department members were trained in a variety of timely topics, including legal update.
- The annual firearms armoring program was held in conjunction with the Superintendent's in-service training. Department armors inspected and serviced over 2,200 weapons.
- The division administered a two-hour in-service police driving training program for all department sworn personnel.
- Refresher Precision Immobilization Technique (PIT) training was conducted for 65 PIT certified officers.
- Department instructors provided over 1,400 hours of instruction for the Indiana Law Enforcement Academy.
- Division personnel administered the process to send two officers to the FBI National Academy.
- Division staff conducted a Field Training Officer (FTO) basic class resulting in the training of 45 new FTOs. FTO refresher training was also conducted for all FTOs, FTOCs and district commanders (250 personnel).
- 85 ILETB instructors were recertified by division personnel.

Criminal Investigation Division

The Criminal Investigation Division (CID) oversees the investigative efforts of the department, and manages programs and grants associated with that mission. Division personnel are assigned to each district and to specialized sections, both in the field and at general headquarters.

- The High Intensity Drug Trafficking Area (HIDTA) Alcohol Tobacco & Firearms (ATF) Firearms Interdiction Regional Enforcement (FIRE) Task Force investigated 145 targets and opened 62 federal cases in 2011. HIDTA ATF-FIRE Task Force referred 45 defendants for Federal prosecution, six for state prosecution, and seized 262 weapons.
- The Internal Revenue Service (IRS) HIDTA task force seized \$270,301 in cash, initiated 16 cases. One case was referred for federal prosecution, and 568 cases were referred to other agencies.
- In 2011, the US Marshal Service Great Lakes Fugitive Task Force Hammond Office arrested 442 persons, with 1,604 charges pending against them. The majority of arrests were for drug offenses, failure to appear, and assaults.
- The Federal Bureau of Investigation (FBI) Gang Resource Investigative Team (GRIT) Task Force in Lake County was responsible for 64 arrests, 27 federal indictments, 48 convictions, 34 search warrants and 25 disruptions in 2011. GRIT seized 1,155 grams of cocaine, 12,376 grams of marijuana, \$56,287 in US currency, 26 handguns, and 11 rifles.
- After discovering approximately \$25,000 missing from the court bond schedule and court assessed fines, a newly elected judge from the Merrillville Town Court contacted Lowell District detectives. An ISP investigation revealed that a clerk forged numerous signatures and destroyed countless court documents and files in an attempt to conceal her actions. An audit conducted by the State Board of Accounts found that over \$300,000 was missing from the Merrillville Town Court.
- In Lake County, a victim's car was shot numerous times on I-94; no injuries were sustained. Investigation revealed the suspect vehicle was used in an armed robbery in Michigan City. The suspect, wanted on a murder warrant from an unrelated case in Gary, was tracked to central Indiana and pursued by law enforcement. Shooting at numerous vehicles during the pursuit, the suspect was apprehended by the Indiana State Police Central ERS Team, and charged with over twenty felonies in several counties.
- Lowell District detectives investigated an alleged child molesting case originating in Porter County. The female suspect had numerous images on a computer of her engaging in sex acts with children under the age of five. The suspect was charged with eighteen felony counts of child molestation. The investigation subsequently revealed that she, along with other females, was acting on behalf of a male suspect who was currently in the Navy in Florida. He directed these women to perform and document various sex acts and send him the images. The male suspect was arrested in Florida and charged with 19 felonies.
- Lafayette District detectives responded to a call in Montgomery County, where a victim was shot in the chest with a shotgun slug. After processing the scene, some facts did not support the suspect's claim of self defense. A key part of the investigation was the use of photogrammetry to document the evidence found at the scene. The Montgomery County Prosecutor charged the suspect with attempted murder.

- In Fulton County, Peru District detectives investigated the murder of an 81-year-old female found shot to death in the home she shared with her daughter and son in-law. Several firearms were taken from the home. Three suspects were identified through an informant who had contacted the Fulton County Sheriff's Department, and surveillance of their residence was established. The suspects left the residence, and fled during a traffic stop. After crashing in Marshall County, they ran into a wooded area. Two of the suspects were taken into custody, and the third was arrested two days later. Most of the firearms were recovered.
- A Carter Express semi-trailer was stolen from Anderson, IN and recovered in Wells County by Ft. Wayne District detectives. Stolen items were recovered including lighting fixtures, auto parts, fork lift trucks and parts of other stolen semi-trailers. The investigation led detectives to a scrap yard in southwestern Huntington County where additional stolen items were located, including a stolen semi-tractor that had been dismantled and partially sold. Total value of items recovered was near \$150,000.
- Detectives and uniform officers responded to a shooting in the town of Waterloo. Deputy Marshal Stephen Brady, a 13-year veteran of the Waterloo Police Department, was investigating the report of a suspicious couple who had approached a home seeking assistance with their vehicle. When Brady encountered the couple, one of the suspects shot him in the face. Three hours later, a resident reported two individuals hiding under his deck. After refusing to come out, officer's deployed a taser device and one of the suspects pointed a hand gun at the officers. The officers fired their weapons, hitting both suspects. One suspect died at the scene, and the other was taken to a local hospital. After release from the hospital, the remaining suspect was taken to jail, and charged with felony murder, conspiracy to commit murder and aiding in attempted murder. The officer survived his injuries.
- In April, two ISP units assigned to the FBI Fort Wayne Safe Streets Task Force (FWSSTF) helped plan and execute a raid that involved the coordination of over 100 police officers from ten local and federal law enforcement agencies. The raid was the culmination of an investigation of a major drug ring. The officers arrested 30 individuals and executed 24 search warrants, and seized over 1 kilogram of cocaine, 250 grams of meth, 905 grams of heroin, over 3 pounds of marijuana and approximately \$250,000 in U.S. currency.
- Bloomington District detectives investigated a double homicide in which two victims were shot to death outside the residence in Owen County. Witnesses said the suspect had forced one victim to go to the second victim's residence to get money. The suspect was ultimately arrested for the murders and is awaiting trial.
- Bloomington District detectives investigated a homicide in Greene County. The victim was found in a wooded area behind a church graveyard in Newark. No solid leads were developed until information was received the victim was earlier seen with the suspect. The suspect was located, and interviewed along with a number of witnesses who provided information that eventually led to the suspect being arrested for the murder.
- Jasper District detectives identified suspects involved in a string of burglaries in Dubois, Spencer and Perry Counties. During a search of the suspect's property, Harrison County authorities located numerous items linked to nine burglaries within the Jasper District and several in the Sellersburg District. One of the suspects was arrested at the time of the warrant service. Three other suspects fled the area. Detectives worked with the U.S. Marshal's Service Task Force who ultimately tracked the suspects to Florida, where they were taken into custody.

- Evansville District detectives investigated a case involving a 15-year-old girl stabbing her grandfather in order to stop him from carrying out a threat to kill her grandmother. The grandfather recovered from his injuries and was charged with domestic battery. The granddaughter was exonerated.
- Evansville District detectives investigated a child molesting involving a former church youth group leader who allegedly molested numerous children over several years. He was arrested and charged with multiple offenses.
- Sellersburg District detectives investigated a triple murder and suicide in Scott County. A mother shot and killed her three children in their home. The mother set the home on fire and then shot and killed herself.
- Versailles District detectives investigated the death of a four-year-old child who shot and killed himself while handling his father's gun, a Franklin County Sheriff's deputy. After a thorough investigation, the county prosecutor declined any criminal charges against the father in relation to the death of the child as the investigation findings did not meet elements of any crime committed by the father, relating to the use of the handgun.
- Versailles Detectives conducted a death investigation in Franklin County in which a two-year-old child was found dead in a trailer park near Brookville, IN. The investigation determined the child died of blunt force injuries to her abdomen. The live-in boyfriend of the child's mother was arrested on charges of murder and battery resulting in death.
- An investigation resulted in the arrest of an Ohio man on murder charges in Hamilton County, Ohio, after a dead body was discovered in a rural creek bed in Ohio County, Indiana. ISP detectives worked with Hamilton County Ohio detectives to solve the murder, with crime scenes in both Indiana and Ohio; interviews conducted in Indiana, Kentucky, Ohio and North Carolina, and evidence collections in multiple states.
- A forgery and perjury investigation in Jackson County resulted in a psychologist being arrested in Marion County and charged forgery and perjury. The investigation determined the psychologist had forged documentation which he used as a means to practice as a "Doctor of Psychology" and had treated over 150 patients over a time dating back to 2008, when in fact he never had attained that level of education.
- Detectives investigated a forgery and theft in Jennings County, resulting in the arrest of a North Vernon woman on nine felony counts of forgery and 40 felony counts of theft. The woman, an accounting manager for a local business, had stolen over \$900,000 from the business over four years.
- Versailles District detectives investigated a murder case in Franklin County where the suspect entered a residence then shot and killed five unarmed victims, four from the same family. The investigation also solved a March 2011 pharmacy robbery investigation that the suspect committed.
- Versailles District detectives conducted a voter fraud, forgery and perjury investigation in Jennings County resulting in grand jury indictments on three men, one of whom was a former Indiana State Representative, on 66 felony charges of fraud, forgery and perjury. The investigation determined the suspects were responsible for voter fraud-related violations regarding absentee ballots and applications submitted in Jennings County.
- Pendleton District detectives investigated a theft from a local medical doctor in Delaware County. The investigation revealed that one of the doctor's employees had made several

unauthorized money transfers totaling over \$390,000 in a period of five years. The investigation has been adopted by the FBI and is being considered for federal charges against the employee.

- Detectives investigated an allegation of voter fraud in Hamilton County against an individual who was a former Fishers Town Councilman and the newly elected Secretary of State. The case went to a grand jury and seven indictments were issued for voter fraud, theft, and defrauding a financial institution. The elected Secretary of State was found guilty on six of the seven felony charges.
- Detectives investigated a complaint of child molestation against a youth wrestling coach in Madison County. Search warrants were obtained for the suspect's home, cell phone, and computer. As a result, several thousands of images of nude and partially nude male juveniles were discovered. The suspect was arrested and charged with child molestation and possession of child pornography.
- Detectives investigated fraudulent claims against the Indiana State Fair Relief Fund and the State Tort Claim Fund. Two female suspects claimed they were at a concert, and injured when high winds swept through the Indiana State Fair in August 2011, causing a stage to collapse. The two submitted falsified hospital records detailing injuries they allegedly received as a result of the collapse. Detectives determined the two women were never at the concert. They were charged with forgery, attempted theft, theft and perjury.
- Detectives conducted a murder investigation of a Terre Haute police officer in Vigo County. Members of the US Marshal's Safe Streets Task Force assisted by ISP and Terre Haute Police Department attempted to serve an arrest warrant at a residence in Terre Haute for a suspect wanted for probation violation and theft in Sullivan County. The suspect hid in a bedroom closet with a false wall, and when discovered by officers opened fire killing the officer. The shooter was wounded, and committed suicide after a one hour standoff. Additional suspects in the residence hid the suspect, failing to warn officers the shooter was lying in wait. Seven adults were charged in federal court for assisting the suspect and providing the weapon used. All seven pleaded guilty to federal charges.

Methamphetamine Suppression Section

The Methamphetamine Suppression Section (MSS) is responsible for Clandestine Laboratory Response, Intelligence Analyst/Meth Watch Coordination, and Methamphetamine Investigations.

- Full-time MSS personnel drew 1,166 cases, made 865 retail visits, received 720 criminal tips, provided 395 public information programs to nearly 244,000 citizens, referred 211 children to child protective services, and attended 1,800 meetings.
- Full-time MSS personnel initiated or assisted with 1,172 clandestine lab seizures, caused the arrest of 1,117 defendants on 3,684 criminal counts, seized 665 grams of meth and had 60 incidents of other drug seizures.
- MSS continued to build on the utilization and functions of the Indiana Meth Investigation System (IMIS). Nearly 350 IMIS users have been trained by ISP MSS personnel to utilize the system throughout the state, and major upgrades to the system were implemented.

- MSS hosted a clan lab certification training in October. Thirty-nine ISP personnel were certified to respond to and process clandestine lab crime scenes. Those trained brought the total number of MSS clan lab team members to 121, of which 19 are assigned full time to MSS.
- MSS hosted and assisted with the coordination of the National Methamphetamine and Pharmaceuticals Initiative Strategy and Training Conference held in May, and the Clandestine Laboratory Investigators Association Conference was held in September. ISP MSS units made presentations at both events.

Drug Enforcement Section

The Drug Enforcement Section (DES) is comprised of detectives and technical support personnel whose primary responsibility is to combat illicit drug activity throughout the state.

- DES personnel opened 1,088 new cases, made 327 drug seizures, 304 drug purchases, and arrested 290 individuals.
- The DES Interdiction Unit seized over 15 million dollars worth of illegal drugs and 3.1 million dollars in cash.
- The Marijuana Eradication Unit eradicated 88,657 plants, investigated 184 indoor grow operations, made 617 criminal arrests, and seized 238 weapons.
- DES personnel, Homeland Security and Chicago ICE Units served a search warrant on a residence in rural Roselawn, Indiana. During the course of the search, 22 kilos of cocaine, 1.8 million dollars, one handgun, one rifle, one bullet proof vest, two trucks, one horse trailer, one semi tractor and flatbed trailer, one box type trailer, and one 24 foot travel trailer were seized. The cocaine has a wholesale value over \$600,000. This was the result of a long term investigation into a local drug trafficking organization operating within a few miles of his residence. All articles and property were seized by US Department of Homeland Security with the intentions of forfeiture.
- DES Marijuana Eradication personnel, with assistance from the Switzerland County Sheriff's Department, Vevay Police Department, and Department of Natural Resources, eradicated a record number of cultivated marijuana plants for one single grow operation. While flying in an Indiana National Guard (ING) helicopter state police and ING spotters discovered several plots of cultivated marijuana near the Switzerland and Jefferson County line. In the following three days, troopers, deputies, police officers, and ING personnel eradicated 24,877 cultivated marijuana plants. This detail removed over 25 million dollars of marijuana.

Organized Crime and Corruption Unit

The Organized Crime and Corruption Unit (OCCU) conducts and coordinates investigations involving complex financial crimes, fraud, and public corruption. OCCU detectives work closely with the United States Attorney's Offices in Indiana and other federal jurisdictions. Matters leading to federal prosecution are routinely investigated.

- The OCCU conducted over 15 investigations involving allegations of misconduct by public officials. This includes assisting the ATF Achilles Task Force with investigations of a former Brooklyn town marshal and a Perry Township deputy constable. The suspects were each charged with one count of conspiracy to possess with intent to distribute, 5 kilograms or more

of cocaine, two counts of attempting to possess with intent to distribute 5 kilograms or more of cocaine, and two counts of possessing firearms in furtherance of a federal drug trafficking crime. In addition, one suspect was charged with one count of transferring firearms knowing that they would be used in a drug trafficking crime, and a third count of possessing firearms in furtherance of a federal drug trafficking crime.

- The OCCU conducted over 20 investigations following routine Indiana State Board of Accounts audits. This includes an investigation of a suspect who stole \$86,860 from the Kingsford Height Fire Department while he was employed from 2002 to 2009.
- The OCCU partnered with the United States Secret Service to investigate several counterfeit check and money laundering investigations. Investigations resulted in two federal indictments and numerous state charges. In one instance, OCCU detectives received information from a confidential informant about a counterfeit check ring operating out of Chicago. OCCU initiated an undercover sting operation in Indianapolis with a "runner" who would cash counterfeit checks at local businesses. Two suspects were arrested shortly after taking the "runner" to a check cashing business and completing the first of six scheduled transactions. The suspects were arrested for multiple counts of forgery and theft. During the investigation by OCCU it was determined that the two suspects were responsible for the distribution of over \$1 million in counterfeit checks throughout Indiana and Illinois.
- The OCCU investigated an agency member accused of embezzling over \$90,000. The employee was arrested and charged with multiple felonies and was recently sentenced to 10 years in prison.
- One OCCU detective is assigned full-time to the FBI Indianapolis Mortgage Fraud Task Force and has conducted over a dozen investigations resulting in multiple federal convictions. In December 2011, one case resulted in the conviction of a reverend who obtained a loan from a charity to build a church. The suspect spent some of the proceeds on a new Mercedes Benz and a mink coat, and caused the loan to default. He pled guilty to two counts of wire fraud as a result of a scheme to defraud the charity of \$449,000, and sentenced to 33 months in prison; 2 years supervised release, and ordered to pay \$449,000 in restitution.

Vehicle Crimes Unit

The Vehicle Crimes Unit (VCU) investigates complex vehicle-related offenses and recovers stolen property. VCU detectives provide expert assistance identifying stolen property for federal, state, and local agencies throughout the state and country. The VCU conducts proactive undercover investigations involving professional vehicle theft rings and counterfeit vehicle titling. VCU detectives provide specialized training and expertise in the areas of vehicle theft, titling, VIN identification, salvaging, and dealer related matters.

- The three undercover investigators and one sergeant assigned to the Vehicle Crimes Unit (VCU) conducted 73 criminal investigations resulting in 95 arrests and the recovery of 75 stolen vehicles. The four units also conducted 783 inspections of salvaged and foreign titled vehicles.
- An investigation of two suspects engaged in ongoing criminal enterprise was conducted in Hendricks County. During the lengthy undercover operation, detectives bought multiple stolen vehicles and construction equipment. The two suspects were targeting vehicles and equipment

left in hotel parking lots and on construction sites. These arrests stopped an ongoing theft operation responsible for a financial loss of over \$2.5 million.

- The VCU arrested 9 people involved in an elaborate car theft operation between New York and Indianapolis. The scheme started with high-end luxury vehicles being stolen in New York. They would alter the Vehicle Identification Number (VIN) and falsify all the legal paperwork associated with the car. Then, they would drive the cars to Indiana and sell them at rock-bottom prices to waiting “customers” who were complicit in the scheme. Those Indiana “customers” would then abandon the vehicles, report them stolen, and attempt to collect the insurance money at the vehicle’s full price. Members of the theft ring were charged with engaging in this scheme at least ten times, for a loss of between \$500,000 and \$600,000. The suspects were arrested for various felony charges including insurance fraud, forgery, auto theft, perjury and false reporting.
- The VCU arrested a career auto thief following a lengthy undercover operation that included hand-to-hand transactions with an officer. The suspect was indicted by a federal grand jury for 25 counts for various offenses arising out of his scheme to steal motor vehicles, which were altered and then sold along with counterfeit titles and other false documentation. The indictment identified 17 different vehicles stolen over the last seven years in the Indianapolis metropolitan area, with most of the alleged thefts occurring in Hamilton County. The 17 vehicles were valued over \$500,000. The subject is believed to personally be responsible for the theft of over 500 vehicles with an estimated value in excess of \$14.7 million.
- VCU detectives recovered a stolen 1932 Ford “Deuce Coupe” hot rod valued at over \$300,000. This vehicle was stolen from a hotel parking lot in Indianapolis and recovered a few days later after a tip from a VCU confidential informant. This rare vehicle was in Indiana for a national car show, and the theft generated international media attention.

Crimes Against Children Unit

The Crimes Against Children Unit (CACU) conducts and coordinates investigations involving child pornography and child sexual exploitation. CACU detectives conduct both proactive and reactive Internet-based investigations regarding these offenses. The CACU also leads the Indiana Internet Crimes Against Children (ICAC) Task Force, which includes approximately 30 affiliate criminal justice agencies throughout Indiana. All CACU detectives are trained as Digital Media Recovery Specialists (DMRS), enabling them to conduct on-scene forensically sound previews of computers, cellular phones, and digital storage media. CACU detectives also have extensive training and experience in interviewing child victims and child sexual predators.

- The CACU was involved in Operation Guardian Angel with federal and local law enforcement. This operation focused on internet predators that target children for sex acts.
- The CACU evaluated and assigned 1,276 CyberTips received from the National Center for Missing and Exploited Children. As the Indiana ICAC statewide coordinator, ISP assesses and assigns the CyberTips for investigation. ISP monitors the progress of the investigations and ensures that they are prioritized and addressed based on children who are in the highest risk categories.

- CACU detectives conducted investigations that resulted in 119 individuals being charged in federal or state courts. The CACU held 50 training sessions for law enforcement and civilian organizations with over 3,200 attendees.

Cyber Crimes Unit

The Cyber Crimes Unit (CCU) conducts forensic examinations of computers, digital devices, and electronic storage media. The CCU also includes the state Cyber Crime Complaint Coordinator, who reviews all allegations of online fraud received from the International Internet Crime Complaint Center.

- The CCU Forensic Examiners conducted a total of 304 computer forensic examinations and 292 cell phones examinations. Over 8,037 terabytes of data was examined.
- Cyber Crimes Forensic examiners conducted forensic previews on an additional 46 hard disk drives, 385 CD's, and 159 other pieces of digital storage media.
- The twenty Digital Media Recovery Specialists conducted a total of 384 forensic previews of hard disk drives along with 420 cell phones, accounting for over 84.65 terabytes of previewed data.
- The Cyber Crime Unit received 1,590 complaints of internet fraud from the National White Collar Crime Center. These complaints all had some connection to Indiana. The complaints were evaluated for solvability factors and 226 of the complaints were sent to the respective district of jurisdiction for further investigation.

In Memoriam

Trooper Eugene Teague
Killed December 20, 1933, in Paris, Illinois during the capture of members of the Dillinger gang.

Trooper Paul V. Minneman
Killed May 27, 1937, while attempting to capture members of the Brady gang.

Trooper William R. Dixon
Killed June 28, 1938, while attempting to apprehend members of the Easton gang.

Trooper George A. Forster
Died May 17, 1941, in a traffic accident near Vernon, Indiana.

Trooper Richard F. England
Died April 22, 1942, of injuries sustained in a traffic accident near Kimmel, Indiana.

Trooper Herbert W. Smith
Killed December 5, 1946, near Shelbyville, Indiana when he was fired on by a traffic violator.

Trooper Robert E. Clevenger
Died September 8, 1953, in a traffic accident while chasing a violator.

Sergeant Hubert Roush
Died January 26, 1955, in an automobile accident near Indianapolis, Indiana.

Trooper Earl L. Brown
Killed August 31, 1955, while searching a suspicious person in Columbus, Indiana.

Sergeant John R. Miller
Died September 5, 1955, in an airplane crash while on Labor Day Patrol.

Trooper Donald R. Turner
Died January 28, 1956, while assisting a wrecker operator pull a car from a ditch.

First Sergeant Marvin E. Walts
Killed March 18, 1957, of gunshot wounds inflicted by a suspected bank robber.

In Memoriam

Trooper William R. Kellems
Killed September 30, 1957,
by fugitives wanted for
murder near Scottsburg,
Indiana.

Trooper John H. Powell
Died February 27, 1959, in a
traffic accident near
Kentland, Indiana.

Trooper Robert J. Garrison
Died December 14, 1959, of
injuries sustained in an
automobile accident.

Trooper Robert C. Gillespie
Died June 8, 1962, in an
automobile accident near
Mitchell, Indiana.

Trooper William F. Kieser
Killed March 9, 1965, while
investigating a suspicious
person near Ramsey,
Indiana.

Trooper Oscar Mills
Died April 12, 1966, as a
result of injuries sustained in
an automobile accident.

Trooper William R. Rayner
Killed December 18, 1966,
by escapees from a Kentucky
state prison.

Trooper Richard G. Brown
Died September 27, 1967, of
injuries sustained in an
automobile accident in
Boone County, Indiana.

Trooper Robert O. Lietzan
Killed March 30, 1969, by a
mentally deranged subject,
armed with a rifle, who had
been firing at random from a
barricaded position.

**Sergeant George W.
Campbell**
Died June 18, 1969, of a
heart attack during the
arrest of a truck driver who
attempted to drive by the
Putnamville scales.

Trooper John J. Streu
Killed February 20, 1971,
while investigating two
suspicious subjects behind a
school building.

Sergeant Glen R. Hosier
Killed April 26, 1971, by a
subject being sought for
murder near Peru, Indiana.

In Memoriam

Trooper William J. Trees
Died June 26, 1972, in an automobile accident while chasing a violator.

Trooper Lawrence B. Meyer
Died February 2, 1974, of a heart attack during a foot pursuit of an escaped prisoner.

Trooper Lewis E. Phillips
Died April 16, 1975, as a result of injuries sustained in an automobile accident.

Trooper Roy E. Jones
Died July 3, 1979, in an automobile accident while en route to assist the Markleville Town Marshal.

Trooper Robert J. Lather II
Died July 6, 1982, in an automobile accident as he assisted the Howard County Sheriff in pursuit of a speeding vehicle.

Trooper Steven L. Bailey
Died December 10, 1983, when his weapon accidentally discharged while attempting to serve a warrant.

Sergeant John E. Hatfull
Killed April 13, 1987, while leading the Emergency Response Team into the residence of a suicidal subject.

Master Trooper Michael E. Greene
Killed February 5, 1993, along Interstate 65 while arresting a person wanted on a warrant.

Trooper Todd A. Burman
Killed July 29, 1993, while assisting the Camden Town Marshal in the arrest of a disorderly person.

Master Motor Carrier Inspector Ralph R. Reed Jr.
Died August 3, 1995, when he was struck by a vehicle while performing a truck inspection.

DNA Supervisor Kimberly S. Epperson
Died November 16, 1995, in an automobile accident while en route to a training assignment.

Trooper Andrew P. Winzenread
Died April 25, 1997, while assisting a disabled motorist along Interstate 74 in Decatur County.

In Memoriam

**Senior Trooper
J. Patrick Bartram**

Died March 31, 1998, of injuries sustained in a traffic crash near Mooresville, Indiana.

**Master Trooper
David A. Deuter**

Died July 16, 1998, while conducting a traffic stop along the Indiana Toll Road.

Trooper Richard T. Gaston
Died March 4, 1999, when a semi-tractor trailer drove off the roadway and struck the trooper's vehicle.

Trooper Cory R. Elson

Killed April 3, 1999, when a driver opened fire on him during a traffic stop on U.S. 27 in Decatur, Indiana.

Trooper Jason E. Beal

Died January 15, 2000, of injuries sustained when he was struck by a passing vehicle as he helped a wrecker operator.

Trooper Scott A. Patrick

Killed December 22, 2003, when a driver opened fire on him as he approached a disabled vehicle.

Lieutenant Gary E. Dudley

Died August 22, 2006, of injuries sustained when he was struck by a box truck. Lieutenant Dudley was riding in a bicycle charity ride that honors fallen police officers.

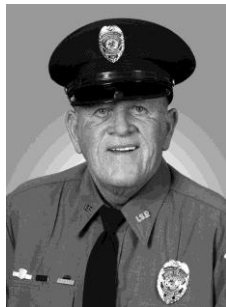

**Master Trooper
David E. Rich**

Killed July 5, 2007, while stopped to assist a stranded motorist on US 24. The motorist shot Master Trooper Rich and then killed himself.

Trooper Daniel R. Barrett

Died January 27, 2008, while attempting to catch a speeding motorist. His car left the roadway and struck a tree on US 31.

**Master Motor Carrier
Inspector
Robert E. Pitcher**

Died September 26, 2010, when his vehicle collided with a semi-tractor trailer.
